OBJECTIVES FOR EQUAL EDUCATIONAL OPPORTUNITIES FOR STUDENTS

This series of the board policy manual is devoted to the board's goals and objectives for assisting the students of the school district in obtaining an education. Each student will have an opportunity to obtain an education in compliance with the policies in this series.

It is the goal of the board to develop a healthy social, intellectual, emotional, and physical self-concept in the students enrolled in the school district. Each student attending school will have the opportunity to use it and its education program and services as a means for self-improvement and individual growth. In so doing, the students are expected to conduct themselves in a manner that assures each student the same opportunity.

The board supports the delivery of the education program and services to students free of discrimination on the basis of race, color, sex, marital status, national origin, sexual orientation, creed, gender identity, religion, disability or socioeconomic status. This concept of equal educational opportunity serves as a guide for the board and employees in making decisions relating to school district facilities, employment, the selection of educational materials, equipment, curriculum, and regulations affecting students.

In the delivery of the education program, students will treat the employees with respect and students will receive the same in return. Employees have the best interests of the students in mind and will assist them in school-related or personal matters if they are able to do so. Students should feel free to discuss problems, whether school-related or personal, with the guidance counselor or other employees.

Board policies, rules and regulations affect students while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Board policy refers to the term "parents" in many of the policies. The term parents for purposes of this policy manual will mean the legal parents, the legal guardian or custodian of a student, and students who have reached the age of majority or are otherwise considered an adult by law.

Inquiries by students regarding compliance with equal educational opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, are directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, Red Oak Community School District, Red Oak, Iowa 51566, or by telephoning (712) 623-6600.

OBJECTIVES FOR EQUAL EDUCATIONAL OPPORTUNITIES FOR STUDENTS

Inquiries by students regarding compliance with equal educational opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Director of the Region VII office of Civil Rights, U.S. Department of Education 8930 Ward Parkway, Suite 2037, Kansas City, MO. 64114 (816) 268-0550 <http://www.state.ia.us/government/crc/index.html> or Iowa Dept. of Education, Grimes State Office Bldg., Des Moines, IA. (515) 281-5294. This inquiry or complaint to the federal or state office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

RESIDENT STUDENTS

Children in the district community will be allowed to enroll in the district's regular education program beginning at age five. The child must be age five on or prior to September 15 to participate in the district's kindergarten program. The child must be age six on or prior to September 15 to begin the first grade of the education program.

The residence of a student means the place, abode, or dwelling of the student. Generally, the legal dwelling of minors is the same as their parents. A student may establish a dwelling with someone other than the parents and attend public school in the school district without paying tuition if the primary purpose for residing in the school district is not for the purpose of obtaining a free public education. Further, students who have reached the age of majority and who are still eligible to attend an Iowa secondary school may declare their residence independent of the residence of the parents.

Each case involving the bona fide residence of a student will be decided upon its individual merits by the superintendent.

NONRESIDENT STUDENTS

Students who are eligible to attend an Iowa public school but who are not legal residents of the school district may be admitted into the school district at the discretion of the superintendent upon application and payment of tuition. The tuition rate is the current per-pupil cost of the school district as computed by the board secretary and as authorized by the Iowa Department of Education.

Resident students whose families move from the school district after the start of a semester and who wish to complete the semester in the school district may be permitted to attend without the payment of tuition at the discretion of the superintendent and approval of the board. Students who plan to open enroll to the nonresident district may complete the school year without approval of the superintendent or board. These students, other than students in grades eleven and twelve, must have the recommendation of the principal.

Students in grades eleven or twelve who are no longer residents of the school district, but were residents in the preceding school year, may continue to attend school until they graduate without the payment of tuition. These students may be required to identify an adult, who resides in the school district, identified for purposes of administration.

Nonresident students who are eligible to attend an Iowa public school and who have evidence they will become legal residents of the school district prior to October 1 may be allowed to attend without the payment of tuition.

FOREIGN STUDENTS

Foreign students must meet all district entrance requirements including age, place of residence and immunization. Foreign students must be approved by the board. The board reserves the right to limit the number of foreign students accepted.

Students who are citizens of a foreign country will be considered residents if they meet one of the following requirements:

- The student resides with his/her parents(s) or legal guardian;
- The student is in the United States with appropriate documentation (Form I-20) from the United States Department of Justice-Immigration and Naturalization Services; or
- The student is a participant in a recognized foreign exchange program; and
- The student is physically able to attend school and has provided the school district with such proof, including a current TB test.

FOREIGN EXCHANGE STUDENTS

Introduction

Youth exchanges provide foreign exchange students with an American experience, giving them a more balanced understanding of our country. They encourage new perspectives that open the minds of the students of the school to the entire world. More importantly, these “connections” help students on both sides of the exchanges grow and gain maturity. These cross-cultural experiences offer unique opportunities for American schools to help their students and communities:

- Learn first-hand about other cultures and customs;
- Create life-long friendships across cultures;
- Gain new perspectives on our country and the world;
- Begin to understand how tightly connected the peoples and countries of the world are to each other;
- Open young minds to the importance of understanding other languages and other cultures, particularly with respect to career and personal opportunities.

At the same time, schools have a right to expect that international exchange students and student exchange programs adhere to guidelines that will minimize problems and make success more likely. The critical element is the ongoing relationship between the exchange program and the school, as well as the responsiveness of the exchange program.

The local school district will control the number of foreign exchange students enrolled in the school system and will limit enrollment to the high school only. District finances, appropriate host family support, and appropriate course offerings for the student are among the factors that will be considered when reviewing the admission of foreign exchange students.

Timing of the Placement Process

The Red Oak Community School District requires that organizations contact the school each year to indicate an interest in placing exchange students. Exchange organizations are to provide the school with advance notice of their intent to place students. The school is to be notified as soon as the student and host family match-ups are confirmed. Recognizing the timing of school staffing and resourcing, exchange organizations should submit student and host family applications as early as possible, or up to two weeks prior to the start of the school year. Acknowledging the difficulty of securing host family commitments, the school will try to accept applications until school starts.

32

The Red Oak Community School District reserves the right to work with exchange organizations that have proven their commitment and responsiveness. The school also will be open to new organizations that demonstrate a serious commitment to the school and community.

School Expectations of Student Exchange Program

The Red Oak Community School District reserves the right of final approval on all student placements. Additionally, the district requires that each individual foreign exchange program must:

- Be listed in the most current Council on Standards for International Educational Travel (CSIET) Advisory List;
- Maintain a network of qualified and trained local representatives living in or near the community, with responsibility for each student; the representatives will provide orientation and ongoing support for both the host family and the student;
- Provide continuing hands-on monitoring and responsiveness, from local representative to national headquarters, including student selection and preparation, selection and screening of host families, ongoing contact with the host family and the student, and communication with the school and responsiveness to school needs;
- Receive school enrollment authorization for placements each year prior to contracting potential host families and follow school policy on timing and requirements;
- Screen and prepare exchange students while monitoring their progress during the school year, responding to issues or problems as they develop;
- Arrange host family placements before exchange students leave their home country, with the expectation that exchange students are to be in their host family and school placements by the first day of classes;
- Personally interview and screen all potential host families, matching student and family interests and personalities;
- Not knowingly place exchange students based on their athletic abilities;
- In the event that tutoring/ESL help is needed, the organization will make arrangements and ensure that the student accepts financial responsibility for it;
- Provide the school with a complete student application that includes the following:
 - Personal letter from the student;
 - Detailed information on the student and the student's natural family;
 - Proof that the student has sufficient language ability to function in an American classroom;
 - Original transcript of the student's high school grades, with English translation (and this must meet school requirements);
 - Necessary medical history, including proof of immunization as required by the State of Iowa, any medical/physical restrictions, and a recent physical exam.

School Expectations for Students on J-1 Visa Sponsorships

The Red Oak Community School District has the following expectations of foreign exchange students:

- Each exchange student must be qualified to participate in regular classes and maintain a typical schedule. This means an acceptable level of proficiency in the English language, a commitment to treat coursework as important, and the social skills to enjoy participation in social and extracurricular activities.
- Foreign exchange students must be aware that participating in interscholastic athletic teams means they must comply with district and state athletic eligibility regulations.
- The school appreciates the difficulty of a student's move into a different language, culture, and institution, but exchange students are expected to attain passing grades by the end of their first semester.
- The enrollment eligibility of exchange students will be for one year only, and exchange students and their host families are expected to know and must follow all school policies and rules.
- Exchange students must have medical and accident insurance that meets or exceeds U. S. Department of State guidelines.
- Exchange students must understand that they are not guaranteed the ability to graduate or to be granted a diploma.

School Responsibilities

In accepting foreign exchange students, the Red Oak Community School District assumes the following responsibilities:

- Students on U. S. Department-sponsored programs (j-1 Visas) generally pay no tuition, but they are expected to pay all normal expenses, such as meals.
- Foreign exchange students have all rights and privileges accorded to all enrolled students, along with the accompanying responsibilities, except the right to a diploma.
- The school will make every effort to integrate foreign exchange students into the social fabric of the school. In turn, the school encourages foreign exchange students to participate in school activities, to make friends, to make a personal contribution to the school, and to help spread the word about their country and themselves, informally and by making presentations in classes and to community groups and by talking with the media when requested to do so.

COMPULSORY ATTENDANCE

Parents within the school district who have children over age four (4) and enrolled in the statewide preschool program, over age five (5) and enrolled in the district's kindergarten program, or over age six and under age sixteen by September 15, in proper physical and mental condition to attend school, shall have the children attend the district at the attendance center designated by the board.

Students of compulsory attendance age will attend school the number of days school is in session in accordance with the school calendar. Students not attending the minimum days must be exempted by this policy as listed below or, referred to the county attorney. Students over age four (4) on September 15 and enrolled in the statewide preschool program and students over age five (5) on September 15 and enrolled in the district's kindergarten program, may not attend the minimum days only if the student's parent notifies the district in writing of the parent's intent to remove the child from the preschool program and/or from enrollment in the district.

Exceptions to this policy include children who:

- have completed the requirements for graduation in an accredited school or have obtained a high school equivalency diploma;
- are attending religious services or receiving religious instruction;
- are attending an approved or probationally approved private college preparatory school;
- are attending an accredited nonpublic school; or,
- are receiving competent private instruction.

It is the responsibility of the parent of a child to provide evidence of the child's mental and physical inability to attend school or of the child's qualifications for one of the exceptions listed above.

The principal will investigate the cause for a student's truancy. If the principal is unable to secure the truant student's attendance, the principal should discuss the next step with the school board. If after school board action the student is still truant, the principal will refer the matter over to the county attorney.

The school will participate in mediation if requested by the county attorney. The superintendent will represent the school district in mediation. The school district will monitor the student's compliance with the mediation agreement and will report violations of the mediation agreement to the county attorney.

The child must be age five on or prior to September 15 to participate in the school district's kindergarten program. The child must be age six on or prior to September 15 to begin the first grade of the education program.

The board will require evidence of age and residency in the form of a birth certificate or other evidence before the student may enroll in the school district's education program. It is within the discretion of the superintendent to determine what is satisfactory evidence for proof of age.

Prior to enrollment, the child must provide the administration with their health and immunization certificate. Failure to provide this information within the time period set by the superintendent is reason for suspension, expulsion or denying admission to the student.

ATTENDANCE CENTER ASSIGNMENT

The board will have complete discretion to determine the boundaries for each attendance center, to assign students to the attendance centers, and to assign students to the classrooms within the attendance center.

It is the responsibility of the superintendent to make a recommendation to the board annually regarding the assigned attendance center for each student. In making the recommendation, the superintendent will consider the geographical layout of the school district, the condition and location of the school district facilities, the location of student population, possible transportation difficulties, financial condition of the school district and other factors deemed relevant by the superintendent or the board.

STUDENT TRANSFERS IN

A student's parents or the student may transfer the student to the school district. Students who transfer into the school district must meet the immunization and age requirements set out for students who initially enroll in the school district.

The school district will request the student's cumulative records from the previous school district. If the student cannot offer proof of grade level, the superintendent will make the grade level determination. The superintendent may require testing or other information to determine the grade level. Students expelled or suspended from their previous school district will only be enrolled after approval of the board.

The superintendent, or the superintendent's designee will determine the amount of credits to be transferred. If the student has not previously attended an accredited school, it is within the superintendent's discretion to accept or reject credits or grades.

The board may deny admission if the student is not willing to provide the board with the necessary information.

STUDENT TRANSFERS IN FROM NONACCREDITED SETTINGS

Students who have been taught in a nonaccredited setting are welcome to attend the Red Oak Community Schools upon meeting legal admissions requirements. The district retains the right to determine grade level placement and whether or not to accept credits the student earned in a nonaccredited setting. In determining the grade placement of a student or the credits to be accepted for a student, the following considerations will be made:

Grades K-8

If the student has been receiving instruction in a nonaccredited setting through a licensed practitioner or under the instructional supervision of a licensed practitioner, the grade placement will be based on the recommendation of that licensed practitioner, as long as the recommendation is age-appropriate for the student. For grade placement other than that which is age-appropriate, documentation must be presented to the superintendent to justify the recommended placement. Such documentation may include, but not be limited to, portfolios, a transcript from an organization which provides the curriculum for the competent private instruction program, and/or standardized test scores. If necessary, the superintendent may require that the student take a standardized test to determine whether the student can demonstrate the necessary skills to justify the placement.

Grades 9-12

A student who is entering grade 9 for the first time at the start of the school year will be subject to the same considerations as those given to students entering grades K-8.

A student who is enrolling at any level in grades 9-12 after having receiving instruction in a nonaccredited setting during those grade levels will be required to provide documentation of work accomplished in each subject area considered to be at the high school level. Such documentation may include, but not be limited to, portfolios, actual completed assignments, information from a licensed practitioner who is providing instruction or instructional supervision, or a transcript from an organization which provides the curriculum for the instructional program in the nonaccredited setting. If concerns exist about the documentation provided to the school, the superintendent may require the student to pass the semester test for a given subject with at least a "C -" grade before approving credit. Credits approved from instruction in a nonaccredited setting will be recorded as a "P" on the student's transcript and will not be included in computing grade point average, class ranking, or any academic awards.

Unless there are extenuating circumstances, a student who has received instruction in a nonaccredited setting must attend Red Oak High School for his/her full senior year to be eligible for a diploma from Red Oak High School. Students transferring in from nonaccredited settings will only be eligible for honors and awards for the actual period of time they have been enrolled as regular students in the school district. Students transferring into the high school from a

nonaccredited setting will not be eligible for class ranking unless he/she has been enrolled for four (4) or more semesters. Such students must meet the graduation requirements of the school district in order to be eligible for a diploma. The combination of credits approved from instruction in the nonaccredited setting and those earned at Red Oak High School must total fifty-two (52) credits. Any requests for exceptions to this policy and regulation must be presented to the board for action.

STUDENT TRANSFERS OUT OR WITHDRAWALS

If the student's parents wish to withdraw or transfer the student from school prior to completing and graduating from the education program, they should notify the superintendent in writing as soon as possible of the decision to withdraw or transfer the student from the education program. The notice should state the student's final day of attendance. The student or parent should present this written notice at the office and receive instructions regarding the return of textbooks, library books, locker equipment, hot lunch tickets, etc.

If the student is not enrolling in another school district, the school district will maintain the student's records in the same manner as the records of students who have graduated from the school district.

If the parents wish to have the student's cumulative record sent to the new school district, the parents must notify the superintendent in writing. This notice will include the name of the school district and the person at the new school district to whom the student's cumulative records should be sent. If the new school district requests the student's cumulative records, the school district will forward the cumulative records and notify the parents the records have been sent. The notice will inform the parents of their right to review the records sent.

If the student is of compulsory education age and not transferring to another public school district or an accredited nonpublic school, the parents will notify the superintendent that the student is receiving competent private instruction and file the necessary competent private instruction reports.

STUDENT ABSENCES - EXCUSED

Regular attendance by students is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students will attend school unless excused by the principal of their attendance center.

Student absences approved by the principal are excused absences. All schools will accept parentally excused absences for up to five (5) days during a semester. Excused absences will count as days in attendance for purposes of the truancy law. These absences include, but are not limited to, personal illness, medical or legal appointments, attendance at a funeral, religious observances or instruction, family emergencies, appointments that cannot be scheduled outside the school day, and school-sponsored or approved activities.

Excused Absence:

- a. If an absence is excused, the student shall be permitted to make up all missed assignments outside of class under reasonable conditions and time limits established by the appropriate teacher. An exception is that in participation-type classes, a student's grade may be affected because of the student's inability to make up the activities conducted during a class period. A student shall be allowed one make-up day for each day of absence.
- b. If a student is confined to home or hospital for an extended period, the school shall arrange for the accomplishment of assignments at the place of confinement whenever practical. If the student is unable to do his/her schoolwork, or if there are major requirements of a particular course which cannot be accomplished outside of class, the student may be required to take an incomplete or withdraw from the class without penalty.

Students participating in school activities must be present for each class of the school day. Students participating in school-sponsored activities (e.g., field trips, athletic events, school arranged college visits, job shadowing, activity events) will not be recorded as an absence on the student's attendance record.

It is the responsibility of the parent to notify the student's attendance center as soon as the parent knows the student will not be attending school on that day. The principal may request evidence or written verification of the student's reason for absence.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

STUDENT ABSENCES—EXCUSED REGULATION

The Importance of Regular School Attendance

EVERY DAY MATTERS - Research supports the theory that students with good class attendance will score better on standardized tests, get higher grades and be less likely to drop out. Although some students may be able to demonstrate sufficient content knowledge, our district's responsibility to educate our students and excel on standardized testing requires that we promote positive school attendance.

Students are expected to be in class and to make attendance a top priority. Only through attendance and class participation do students achieve the benefits of the education program. Participating in class discussion, developing an appreciation for the views and abilities of other students, and forming the habit of regular attendance are legitimate class objectives. Learning lost due to an absence can never be replaced. Regular attendance and being well prepared for class help students in school as well as preparing students for adulthood.

Parents are expected to telephone the school office to report the student absence in advance of the start of school, if possible, and in all cases by 8:30 A.M. of the day the absence occurs to avoid a call from the automated dialer.

Legal Obligation Regarding Attendance

The school believes the responsibility for attendance rests with the parents and the students. We encourage those responsible to make good sound educational decisions about school attendance, keeping in mind that attendance at school results in greater success. If that responsibility is not assumed by the student and parents, the school will enforce the state of Iowa mandatory attendance laws, and the excessive absence regulation.

Additional rules pertaining to excused absences may be found in the Student Handbooks that are provided to students and parents annually.

STUDENT ABSENCES – TRUANCY/UNEXCUSED ABSENCES

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students will attend school unless excused by the principal of their attendance center.

Truancy is defined as any absence that occurs without notification from the student's parent/guardian will be classified as truant. Schools must be notified on or before the day of the absence in order for the absence not to be classified as truancy.

Verified Unexcused Absence is defined as any absence that is verified by the parent or guardian, but is not listed in the "Excused" category above would be considered a "Verified Unexcused Absence". Verified unexcused absences can occur because of personal reasons and may include, but are not limited to:

- a. short notice family trips
- b. birthday parties
- c. non-school related competitions
- d. prom dress shopping
- e. graduations
- f. trips to the airport
- g. car problems
- h. planned family vacations in excess of 3 missed school days

Penalties & Procedures for Verified Unexcused Absences/Truancy

Truancy or Verified Unexcused Absences –

- 1st offense - 30 minute detention to be served within 24 hours
- 2nd offense – 1 day ISS.
- *Please note our newly fashioned ISS program will be committed to educational and community service purposes. Half of the day our students will focus on academics, by completing missing or late work. The second half of the day will be community service based, by way of working with our custodial and maintenance staff on the upkeep of our facilities.*
- *If a student refuses to accept responsibility for their actions and is not present for the assigned consequence, appropriate administrative action will take place.*
- 5th offense – One day of ISS. Student will remain in ISS until parents meet with Guidance Counselor, Administrator, or Student Support Coordinator.
- 10th offenses – Subsequent violations - Please see loss of credit section.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A SENDING DISTRICT

The school district will participate in open enrollment as a sending district. As a sending district, the board will allow resident students who meet the requirements to open enroll to another public school district.

Parents requesting open enrollment out of the school district for their student will notify the sending and receiving school district no later than March 1 in the school year preceding the first year desired for open enrollment. The notice is made on forms provided by the Department of Education. The forms are available at the central administration office.

Parents of children who will begin kindergarten in the school district are exempt from the open enrollment March 1 deadline. Parents of children who will begin kindergarten will file in the same manner set forth above by September 1. Parents who have good cause as defined by law for failing to meet the March 1 deadline may make an open enrollment request by September 1 unless another deadline applies.

The receiving district will approve open enrollment requests according to the timelines established by law. The parents may withdraw the open enrollment request prior to the start of the school year. The receiving district's superintendent will notify the parents and sending school district by mail within five days of the school district's action to approve or deny the open enrollment request.

The board may approve a student's request to allow the receiving district to enter the school district for the purposes of transportation. Conditions for such transportation will be determined annually.

An open enrollment request out of the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factor for approval of such an open enrollment request will be whether the special education program available in the receiving school district is appropriate for the student's needs. The area education agency director of special education serving the receiving district will determine whether the program is appropriate. The special education student will remain in the school district until the final determination is made.

It is the responsibility of the superintendent to maintain open enrollment request applications and notice forms. It will also be the responsibility of the superintendent to develop appropriate office procedures necessary for open enrollment requests.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

The school district will participate in open enrollment as a receiving district. As a receiving district, the board will allow nonresident students, who meet the legal requirements, to open enroll into the school district. The board will have complete discretion to determine the attendance center of the students attending the school district under open enrollment.

The superintendent will approve timely filed applications by June 1; incoming kindergarten applications; good cause application; or continuation of an educational program application filed by the third Thursday of the following September. All other applications will be acted upon by the board.

The superintendent will notify the sending school district and parents within five days of the school district's action to approve or deny the open enrollment request. The superintendent will also forward a copy of the school district's action with a copy of the open enrollment request to the Iowa Department of Education.

Open enrollment requests into the school district will not be approved if insufficient classroom space exists. Open enrollment requests into the school district will also not be approved for students who have been suspended or expelled by the administration or the board of the school district the student is or was attending until the student has been reinstated into the school district from which the student was suspended or expelled. Once the student is reinstated, the student's open enrollment request will be considered in the same manner as other open enrollment requests provided the required timelines are met.

Open enrollment requests into the school district that, if denied, would result in students from the same nuclear family being enrolled in different school districts, will be given highest priority. The board, in its discretion, may waive the insufficient classroom space reason for denial for students of the same nuclear family to prevent the division of a nuclear family between two school districts. Other open enrollment requests into the school district are considered in the order received by the school district with the first open enrollment request given a higher priority than the second open enrollment request and so forth.

Generally, students in grades nine through twelve open enrolling into the school district will not be eligible for participation in interscholastic athletics, at the varsity level, during the first ninety days of open enrollment into the school district.

50

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

Parents of students whose open enrollment requests are approved by the board or superintendent are responsible for providing transportation to and from the receiving school district without reimbursement. The board will not approve transportation into the sending district without approval from the board of the sending district.

An open enrollment request into the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factors for approval of such an open enrollment request will be whether the special education program available in the school district is appropriate for the student's needs and whether the enrollment of the special education student will cause the class size to exceed the maximum allowed. The area education agency director of special education serving the school district will determine whether the program is appropriate. The special education student will remain in the sending district until the final determination is made.

The policies of the school district will apply to students attending the school district under open enrollment.

It is the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

HOMELESS CHILDREN AND YOUTH

The board will make reasonable efforts to identify homeless children and youth of school age within the district, encourage their enrollment and eliminate existing barriers to their receiving an education which may exist in district policies or practices. The designated coordinator for identification of homeless children and for tracking and monitoring programs and activities for these children is the superintendent of schools, with the designee as an alternate.

“Homeless child or youth” is defined as a child or youth from the age of 5 years through 21 years who lacks a fixed, regular, and adequate night-time residence and includes the following:

1. A child or youth who is sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; is living in a motel, hotel, trailer park, or camping grounds due to the lack of alternative adequate accommodations; is living in an emergency or transitional shelter; is abandoned in a hospital; or is awaiting foster care placement;
2. A child or youth who has a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
3. A child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train station, or similar setting; or
4. A migratory child or youth who qualifies as homeless because the child or youth is living in circumstances described in paragraphs “1” through “3” above.

School Records: For students transferring out of the district, records may be provided directly to the student or the student’s parents. In addition, students transferring into the school district may provide cumulative records directly to the district. The school district will not require that such records be forwarded from another school district before that student may enroll. The school will then request the official records from the previous school.

Immunization Requirements: Homeless students will not be denied enrollment for lack of immunization records if:

1. They have a statement signed by a physician stating that immunization would be injurious to the student;
2. They provide an affidavit stating such immunization would conflict with their religious beliefs;
3. They are in the process of being immunized; or
4. They are a transfer student from another school.

HOMELESS CHILDREN AND YOUTH

The school district will make a reasonable effort to locate immunization records from the information provided or will arrange for the student to receive immunizations.

Waiver of Fees and Charges: Fees and charges which may present a barrier to the enrollment or transfer of a homeless child or youth may be waived in the discretion of the superintendent.

Enrollment Requirements/Placement: Enrollment requirements which may constitute a barrier to the education of a homeless child or youth may be waived at the discretion of the Superintendent. If the district is unable to determine the grade level of the student because of missing or incomplete records, the district shall administer appropriate tests to determine the appropriate grade level for the child.

Residency: For purpose of a homeless child or youth, residence for the purpose of attending school shall be where the child actually resides or the child's district of origin. A child's district of origin is the district where the child was last enrolled. The deciding factor shall be the welfare of the child.

Transportation: Policies or practices regarding transportation of students which might cause a barrier to the attendance of a homeless child or youth may be waived by the Superintendent.

Special Services: All services which are available to resident students shall be made available to homeless children or youths enrolled in the district. Services include special education, talented and gifted programs, vocational education, English as a second language programs, health services, and food and nutrition programs.

The contents of this policy shall supersede any and all conflicting provisions in district policies dealing with the seven policy areas discussed above.

A parent choosing competent private instruction for a student by or under the supervision of a licensed practitioner, competent private instruction for a student by a non-licensed individual or independent private instruction must meet the requirements outlined under Iowa law.

A parent choosing competent private instruction for a student must notify the district prior to the first day of school on forms provided by the district. The forms are available in the central administration office. One copy of the completed forms will be kept by the district and another copy will be forwarded to the Area Education Agency.

A parent choosing independent private instruction for a student may be asked to provide a report identifying the primary instructor, location, name of the authority responsible for the independent instruction, and the names of the students enrolled to the district.

The district shall report noncompliance with the reporting, immunization, attendance, instructor qualifications, and assessment requirements of the compulsory attendance law to the county attorney of the county of residence of the student's parent, guardian or custodian.

Students receiving competent private instruction are eligible to request open enrollment to another school district. Prior to the request for open enrollment, the student shall request dual enrollment in the resident district. The receiving district shall not bill the resident district unless the receiving district complies with the reporting requirements. If the parent, guardian or custodian fails to comply with the compulsory attendance requirements, the receiving district shall notify the resident district. The resident district shall then report the noncompliance to the county attorney of the county of residence of the parent, guardian or custodian.

Students receiving competent private instruction by a non-licensed individual shall be evaluated annually by the parent, guardian or legal custodian to ensure adequate progress is being made. Students receiving competent private instruction from a non-licensed individual may be assessed annually. The district will provide any optional assessments at no cost.

Students receiving competent private instruction by or under the supervision of a licensed practitioner and students receiving competent private instruction from a non-licensed individual may dual enroll with the district. Students receiving individual private instruction may not dual enroll with the district.

Upon the request of a parent, guardian or legal custodian of a student receiving competent private instruction or upon referral of a licensed practitioner who provides instruction or instructional supervision of a student under competent private instruction, the district shall refer a student who may require special education to the area education agency, Division of Special Education, for evaluation.

STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and well-groomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. FREEDOM OF EXPRESSION

Student expression, other than student expression in student-produced official school publications, made on the school district premises or under the jurisdiction of the school district or as part of a school-sponsored activity may be attributed to the school district; therefore, student expression must be responsible. Student expression must be appropriate to assure that the students learn and meet the goals of the school activity and that the potential audience is not exposed to material that may be harmful or inappropriate for their level of maturity.

Students will be allowed to express their viewpoints and opinions as long as the expression is responsible. The expression will not, in the judgment of the administration, encourage the breaking of laws, defame others, be obscene or indecent, or cause a material and substantial disruption to the educational program. The administration, when making this judgment, will consider whether the activity in which the expression was made is school-sponsored and whether review or prohibition of the students' speech furthers an educational purpose. Further, the expression must be done in a reasonable time, place, and manner that is not disruptive to the orderly and efficient operation of the school district.

POSSESSION OR USE OF WEAPONS

The board believes weapons, other dangerous objects and look-a-likes in school district facilities cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees and visitors on the school district premises or property within the jurisdiction of the school district.

School district facilities are not an appropriate place for weapons, dangerous objects and look-a-likes. Weapons and other dangerous objects and look-a-likes will be taken from students and others who bring them onto the school district property or onto property within the jurisdiction of the school district or from students who are within the control of the school district.

Parents of students found to possess weapons, dangerous objects or look-a-likes on school property are notified of the incident. Possession or confiscation of weapons or dangerous objects will be reported to law enforcement officials, and students will be subject to disciplinary action including suspension or expulsion.

Weapons, including firearms, are not allowed on school property or at school activities, including hunting rifles or shotguns, even if they are unloaded and locked in vehicles. Students bringing firearms to school or knowingly possessing firearms at school will be expelled for not less than one year. Students bringing to school or possessing dangerous weapons, including firearms, will be referred to law enforcement authorities. The superintendent has the authority to recommend this expulsion requirement be modified for students on a case-by-case basis. For purposes of this portion of this policy, the term "firearm" includes, but is not limited to, any weapon which is designed to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or any explosive, incendiary or poison gas.

Any student bringing a weapon, look-a-like, other dangerous object, or any instrument used as a weapon onto district property or onto property within the jurisdiction of the district may be suspended or expelled from school.

65

POSSESSION OR USE OF WEAPONS

For purposes of this policy, the term “dangerous object” includes any instrument or device designed primarily for use in inflicting death or injury upon a human being or animal, and which is capable of inflicting death upon a human being when used in the manner for which it was designed. The term “dangerous object” also includes any instrument of device or any sort whatsoever which is actually used in such a manner as to indicate that the individual intends to inflict death or injury upon the other, and which, when so used, is capable of inflicting death upon a human being. In addition, dangerous objects or any instrument used as a weapon in the school includes any object used to intimidate, coerce, scare or threaten a student, school district employee or visitor. Dangerous objects therefore include, but are not limited to, clubs, nunchakus, brass knuckles, knives regardless of blade length, stun guns, BB and pellet guns, toy guns used or displayed as real guns, and unloaded guns.

Weapons under the control of law enforcement officials are exempt from this policy. The principal may allow authorized persons to display weapons, other dangerous objects or look-alikes for educational purposes. Such a display will also be exempt from this policy. It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of cigarettes, tobacco or tobacco products for those under the age of eighteen, may be reported to the local law enforcement authorities. Possession, use or being under the influence of beer, wine, alcohol and/or of a controlled substance may also be reported to the local law enforcement authorities.

Students who violate the terms of this policy may be required to satisfactorily complete a substance abuse assistance or rehabilitation program approved by the school board. If such student fails to satisfactorily complete such a program, the student may be subject to discipline including suspension or expulsion.

The board believes the substance abuse prevention program will include:

- Age-appropriate, developmentally-based drug and alcohol curriculum for students in grades kindergarten through twelve, which address the legal, social, and health consequences of tobacco, drug and alcohol use and which provide information about effective techniques for resisting peer pressure to use tobacco, drugs or alcohol;
- A statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;
- Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of illicit drugs and alcohol by students on school premises or as part of any of its activities;
- A clear statement that disciplinary sanctions, up to and including suspension or expulsion and referral for prosecution, will be imposed on students who violate the policy and a description of those sanctions;

SMOKING - DRINKING - DRUGS

- A statement that students may be required to successfully complete an appropriate rehabilitation program;
- Information about drug and alcohol counseling and rehabilitation and re-entry programs available to students;

- In order to determine whether or not reasonable suspicion exists, appropriate school personnel, designated as “school function safety employees,” may be trained in the identification of individuals who may be under the influence of alcohol or drugs. Whether or not an employee has received training is not indicative of whether or not reasonable suspicion exists in any given situation.
- If reasonable suspicion of alcohol use exists, a breathalyzer test may be given to the student by a school function safety employee. If the test is positive for alcohol, law enforcement will be called to handle the situation. School disciplinary measures also will be in effect.
- If reasonable suspicion of drug use exists, parents will be contacted and given the option of taking the student for a drug test at the hospital at district expense. SEARCH AND SEIZURE

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and articulable suspicion that a school district policy, rule, regulation or law has been violated. The search is in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. School officials may also conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the district and provided as a courtesy to a student.

The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, will not create a protected student area and will not give rise to an expectation of privacy with respect the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, nonprescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons and stolen property. Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

It is the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

SEARCH AND SEIZURE REGULATION

I. Searches, in general.

- A. Reasonable and Articulate Suspicion: A search of a student will be justified when there are reasonable grounds for the suspicion that the search will turn up evidence that the student has violated or is violating the law or school district policy, rules, or regulations affecting school order.

Reasonable suspicion may be formed by considering factors such as the following:

- (1) eyewitness observations by employees;
- (2) information received from reliable sources;
- (3) suspicious behavior by the student; or,
- (4) the student's past history and school record although this factor alone is not sufficient to provide the basis for reasonable suspicion.

- B. Reasonable Scope: A search will be permissible in its scope or intrusiveness when the measures adopted are reasonably related to the objectives of the search. Reasonableness of scope or intrusiveness may be determined based on factors such as the following:

- (1) the age of the student;
- (2) the sex of the student;
- (3) the nature of the infraction; and
- (4) the emergency requiring the search without delay.

II. Types of Searches

A. Personal Searches

1. A student's person and/or personal effects (e.g., purse, backpack, etc.) may be searched when a school official has reasonable suspicion to believe the student is in possession of illegal or contraband items or has violated school district policies, rules, regulations or the law affecting school order.
2. Personally intrusive searches will require more compelling circumstances to be considered reasonable.
 - (a) Pat-Down Search: If a pat-down search or a search of a student's garments (such as jackets, socks, pockets, etc.) is conducted, it will be conducted in private by a school official of the same sex as the student and with another adult witness of the same sex present, when feasible.

- (b) A more intrusive search, short of a strip search, of the student's person, handbags, book bags, etc., is permissible in emergency situations when the health and safety of students, employees, or visitors are threatened. Such a search may only be conducted in private by a school official of the same sex as the student, with an adult of the same sex present unless the health or safety of students will be endangered by the delay which may be caused by following these procedures.

B. Locker and Desk Inspections

Although school lockers and desks are temporarily assigned to individual students, they remain the property of the school district at all times. The school district has a reasonable and valid interest in insuring the lockers and desks are properly maintained. For this reason, lockers and desks are subject to unannounced inspections and students have no legitimate expectations of privacy in the locker or desk. Periodic inspections of all or a random selection of lockers or desks may be conducted by school officials in the presence of the student or another individual. Any contraband discovered during such searches will be confiscated by school officials and may be turned over to law enforcement officials.

The contents of a student's locker or desk (coat, backpack, purse, etc.) may be searched when a school official has reasonable and articulable suspicion that the contents contains illegal or contraband items or evidence of a violation of law or school policy or rule. Such searches should be conducted in the presence of another adult witness when feasible.

C. Automobile Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on the school premises may be searched if the school official has reasonable and articulable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

INTERVIEWS OF STUDENTS

A student may not be interviewed in school unless the building principal gives specific permission. Generally, individuals other than parents and school district officials and employees may not interview students during the school day. No interview shall be permitted unless the principal deems it essential to the welfare of the pupil as set forth in regulations, or he is directed to do so by court order.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students are made through the principal's office. Upon receiving a request, it is the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal will attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, the principal will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview.

Students will not be taken from school without the consent of the principal and without proper warrant.

INTERVIEWS OF STUDENTS REGULATION

I. Investigation Conducted in the Educational Environment

A. Interviews Initiated by School Administrators

1. Conducted by Administrators

- a. Principals shall have the authority to conduct investigations and to question students pertaining to infractions of school rules, whether or not the alleged conduct is a violation of criminal law.

2. Conducted by Law Enforcement Officers

- a. The principal/designee shall determine when the necessity exists that law enforcement officers be contacted to conduct an investigation of alleged criminal behavior.
- b. The principal/designee may request that law enforcement officers conduct an investigation of alleged criminal behavior during school hours. A reasonable attempt shall be made to contact the student's parents, guardian or representative prior to questioning of students by law enforcement officers. Such contacts or attempted contacts with parents, guardian or representative shall be documented by the administrator involved. In the absence of a student's parents, guardian or representative during any questioning of such students, the principal or other designated certificated school staff person shall be present.
- c. If the investigation has centered on any particular student suspected of such alleged criminal activity, the procedure of taking students into custody by the police set forth in Section II shall be followed to the extent that they do not interfere with reasonable law enforcement procedures.

B. Interviews Initiated by Law Enforcement Officers

1. Although cooperation with law enforcement officers will be maintained, it should not normally be necessary for law enforcement officers to initiate and conduct any investigation and questioning on the school premises during school hours pertaining to criminal activities unrelated to the operation of the school. Only in demonstrated emergency situations, when law enforcement officers find it absolutely necessary, will they be

voluntarily permitted to conduct such an investigation during school hours. These circumstances should ordinarily be limited to those in which delay might result in danger to any person, or flight from the jurisdiction of a person reasonably suspected of a crime or destruction of evidence.

2. In such cases, the officers shall be requested to obtain prior approval of the principal/designee before beginning such an investigation on school premises. The administrator shall document the circumstances of such investigations as soon as practicable. Alleged criminal behavior related to the school environment brought to the principal's attention by law enforcement officers shall be dealt with under Iowa law.

C. Questioning of Students During Investigation

1. Violations of School Rules

- a. In instances where school rules have allegedly been violated, the principal/designee may contact the suspected rule violator or potential witness to the infraction.
- b. The suspected student shall be advised orally or in writing of the nature of the alleged offense and of the evidence, if any, against the student.
- c. In questioning a potential student witness to an alleged disciplinary infraction, care should be taken by the administrator to insure that there is a reasonable likelihood that the student was indeed a witness.

2. Violations of Criminal Law

- a. During an investigation of violation of school rules, it may come to the attention of the administrator that the investigated activity may also be a violation of criminal law. In proceeding with the investigation, the principal/designee can attempt to ascertain whether there is sufficient justification to believe that a criminal offense was committed that warrants contacting law enforcement officials.
- b. Where a suspected violation of criminal law has occurred on the school grounds, involving the operation of the school or during a school-sponsored activity, law enforcement officials may be notified and their presence requested for the questioning of suspected students. Unless circumstances dictate otherwise, questioning of the student shall not begin or continue until the law

enforcement officers arrive. Reasonable attempts shall be made to contact a student's parents, guardian or representative who, unless an emergency exists, shall be given the opportunity to confer with the student and to be present with the student during such questioning. The administrator shall document the contact or attempted contact with the student's parents, guardian or representative. The law enforcement officers may wish to advise the student of his/her legal rights.

II. Taking a Student into Custody

- A. Students may not be released to law enforcement authorities voluntarily by school officials unless the student has been placed under arrest or unless the parent, guardian or representative and the student agrees to the release. Administrators shall make reasonable objections to law enforcement authorities who attempt to remove students from school without placing them under arrest or without the acquiescence of the parent, guardian or representative and the student. When students are removed from school for any reason by law enforcement authorities, reasonable efforts will be made to contact the student's parents, guardian or representative immediately. Such effort shall be documented. The superintendent's office shall be notified immediately of any removal of a student from school by law enforcement officers under any circumstances.
- B. Where it is necessary to take a student into custody on school premises, and the time permits, the law enforcement officer shall be requested to contact the school principal/designee and relate the circumstances necessitating such action. When possible, the principal/designee shall have the student summoned to the principal's office where the student may be taken into custody.
- C. When an emergency exists, the school principal/designee may summon law enforcement officials to the school to take a student into custody.
- D. When a student has been taken into custody or arrested on school premises without prior notification to the principal/designee, the school staff present shall encourage the law enforcement officers to notify the principal/designee of the circumstances as quickly as possible. In the event that the officers decline to notify the principal/designee, the school staff members present shall immediately notify the principal/designee.
- E. If possible, parents, guardian or representative of the student shall be notified by the principal or other school administrator before the student is taken into custody by law enforcement officers or as quickly thereafter as can be accomplished. The administrator shall document such notification or attempted notification.

III. Disturbance of School Environment

- A. Law enforcement officers may be requested to assist in controlling disturbances of the school environment which the principal or other school administrator has found to be unmanageable by school personnel or has the potential of causing harm to students and other persons or to property. Such potential of possible harm includes members of the general public who have exhibited inappropriate or illegal conduct on school premises or at a school event held on school property and who have been requested to leave by an administrator, but have refused or failed to do so.

IV. Disseminating and Reviewing Policies

- A. This policy shall regularly be disseminated to staff members. School staff members shall be apprised of the contents of these provisions as they are updated, and at least annually.
- B. School administrators are encouraged to meet at least annually with local law enforcement officials to discuss the district's policy and rules regarding law enforcement contacts with the district. Law enforcement officials will be asked to instruct their staffs as to the terms of the school's policy and rules.

USE OF MOTOR VEHICLES

The board recognizes the convenience to families and students of having students drive to and park at their school attendance center. Driving a motor vehicle to and parking it at the student's attendance center is a privilege.

Students who drive to and park at their school attendance center shall only drive to and park at their designated attendance center. Students may not loiter around or be in their vehicle during the school day without permission from the principal. Students shall leave their attendance center when there is no longer a legitimate reason for them to be at their attendance center. Students who drive shall enter and leave the parking lot by the routes designated by the principal.

Students who live within one mile of school, and would not otherwise be eligible for a student driving permit, may be eligible for a student driving permit, for driving to and from school and school activities and practices, if the student has a medically verified physical hardship.

Students who wish to drive to and park at their school attendance center shall comply with the rules and regulations established by the building principal. Failure to comply with this policy or the school district rules shall be reason for revocation of school driving and parking privileges as well as other disciplinary action including suspension and expulsion.

CORPORAL PUNISHMENT

The district will not tolerate corporal punishment of any form. Corporal punishment is defined as the intentional physical punishment of a student and is prohibited. It includes the use of unreasonable or unnecessary physical force or physical contact made with the intent to harm or cause pain.

No employee is prohibited from:

- Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
 - To quell a disturbance or prevent an act that threatens physical harm to any person.
 - To obtain possession of a weapon or other dangerous object within a pupil's control.
 - For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.
 - For the protection of property as provided for in Iowa Code section 704.4 or 704.5.
 - To remove a disruptive pupil from class or any area of school premises or from school-sponsored activities off school premises.
 - To protect a student from the self-infliction of harm.
 - To protect the safety of others.
- Using incidental, minor, or reasonable physical contact to maintain order and control.

Reasonable physical force should be commensurate with the circumstances of the situation. The following factors should be considered in using reasonable physical force for the reasons stated in this policy:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student's behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any;
5. The motivation of the school employee using physical force.

Upon request, the student's parents are given an explanation of the reasons for physical force.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

STUDENT CONDUCT

The board believes inappropriate student conduct causes material and substantial disruption to the school environment, interferes with the rights of others, or presents a threat to the health and safety of students, employees, and visitors on school premises. Appropriate classroom behavior allows teachers to communicate more effectively with students.

Students will conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Consequences for the misconduct will be fair and developmentally appropriate in light of the circumstances.

Students who fail to abide by this policy and the administrative regulations supporting it may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to participate in or obtain their education; conduct that is violent or destructive; or conduct which interrupts the maintenance of a disciplined atmosphere. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion.

Discipline will be administered depending on the severity and frequency of the acts of misconduct. The imposition of discipline will be within the discretion of the individual responsible for imposing the discipline. In instances where there has been a violation of the law, as well as school rules, appropriate law enforcement officials will be contacted and may become involved in the district's administration of discipline. The school reserves the right to seek restitution from the parents/guardians of a student or the student for damage caused by the student.

Students may be disciplined for conduct that violates commonly held notions of unacceptable, immoral or inappropriate behavior that includes, but is not limited to, the following:

1. Open and/or persistent defiance of authority, school rules, and regulations (including extracurricular rules);
2. Assault or threatened assault on another person;
3. Extortion, intimidation or coercion;
4. Inciting others to violate the law or school rules;

STUDENT CONDUCT

5. Vandalism;
6. Gambling;
7. Theft or possession of stolen goods/property;
8. Sale, manufacture or distribution of illegal drugs, controlled substances, imitation controlled substances or drug paraphernalia;
9. Possession, use or being under the influence of illegal drugs, controlled substances, imitation controlled substances or drug paraphernalia.
10. Possession, use or threatening to use any instrument that is generally considered a weapon, an instrument that is normally not considered a weapon as a weapon, an imitation weapon or an explosive;
11. Possession, use or being under the influence of alcoholic beverages;
12. Use, possession, and/or transmission of tobacco or imitation substances;
13. Profanity;
14. Possession of pornographic/obscene literature, items or materials;
15. Student dress which is suggestive, condones illegal activity or in some way disrupts the educational process;
16. Failure to abide by corrective measures for previous acts of misconduct;
17. Harassment in any form of another person;
18. Conduct which discriminates against others based upon an individual's sex, race, national origin, religion or disability;
19. Destruction, damage, unauthorized use, inappropriate use, and/or manipulation of hardware, software or any aspect or component of the school's electronic information system including the internet; or
20. Inappropriate sexual conduct including harassment, indecent exposure, and visible display of affection.

A student who commits an assault against an employee on school district property or on property within the jurisdiction of the school district; while on school-owned or school-operated chartered vehicles; while attending or engaged in school district activities will be suspended by the principal. Notice of the suspension is sent to the board president. The board will review the suspension to determine whether to impose further sanctions against the student which may include expulsion. Assault for purposes of this section of this policy is defined as:

- an act which is intended to cause pain or injury to, or which is intended to result in physical contact which will be insulting or offensive to another, coupled with the apparent ability to execute the act; or
- any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting or offensive, coupled with the apparent ability to execute the act; or

STUDENT CONDUCT

- intentionally points any firearm toward another or displays in a threatening manner any dangerous weapon toward another.

The act is not an assault when the person doing any of the above and the other person are voluntary participants in a sport, social or other activity, not in itself criminal, when the act is a reasonably foreseeable incident of such sport or activity, and does not create an unreasonable risk of serious injury or breach of the peace.

The school district may impose a range of disciplinary measures for acts of misconduct. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion. Discipline will be administered depending on the severity and frequency of the acts of misconduct. The imposition of discipline will be within the discretion of the individual responsible for imposing the discipline. In instances where there has been a violation of the law, as well as school rules, appropriate law enforcement officials will be contacted and may become involved in the school district's administration of discipline. The school reserves the right to seek restitution from the parents/guardians of a student or the student for damage caused by the student. The school district shall insure due process for the students and parents.

A restriction from school activities means a student will attend school, classes, and practice, but will not participate in other school activities.

Removal from the classroom means a student is sent to the building principal's office. It shall be within the discretion of the person in charge of the classroom to remove the student.

Detention means the student's presence is required during non-school hours for disciplinary purposes. The student can be required to appear prior to the beginning of the school day, after school has been dismissed for the day, or on a non-school day. Whether a student will serve detention, and the length of the detention, is within the discretion of the licensed employee disciplining the student or the building principal.

Suspension means; either an in-school suspension, an out-of-school suspension, a restriction from activities or loss of eligibility. An in-school suspension means the student will attend school but will be temporarily isolated from one or more classes while under supervision. An in-school suspension will not exceed ten consecutive school days. An out-of-school suspension means the student is removed from the school environment, which includes school classes and activities. An out-of-school suspension will not exceed ten days. A restriction from school activities means a student will attend school and classes and practice but will not participate in school activities.

STUDENT CONDUCT

Probation means a student is given a conditional suspension of a penalty for a definite period of time in addition to being reprimanded. The conditional suspension will mean the student must meet the conditions and terms for the suspension of the penalty. Failure of the student to meet these conditions and terms will result in immediate reinstatement of the penalty.

Expulsion means an action by the board to remove a student from the school environment, which includes, but is not limited to, classes and activities, for a period of time set by the board.

Following the suspension of a special education student, an informal evaluation of the student's placement will take place. The Individual Education Program (IEP) is evaluated to determine whether it needs to be changed or modified in response to the behavior that led to the suspension.

If a special education student's suspensions, either in or out of school, equal ten days on a cumulative basis, a staffing team will meet to determine whether the IEP is appropriate.

STUDENT SUSPENSION

Administrative Action

A. Probation

1. Probation is conditional suspension of a penalty for a set period of time. Probation may be imposed by the principal for infractions of school rules which do not warrant the necessity of removal from school.
2. The principal will conduct an investigation of the allegations against the student prior to imposition of probation. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. Written notice and reasons for the probation will be sent to the parents.

B. In-School Suspension

1. In-school suspension is the temporary isolation of a student from one or more classes while under administrative supervision. In-school suspensions may be imposed by the principal for infractions of school rules which are serious but which do not warrant the necessity of removal from school.
2. The principal will conduct an investigation of the allegations against the student prior to imposition of an in-school suspension. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. In-school suspension will not be imposed for more than ten school days. Written notice and reasons for the in-school suspension will be sent to the student's parents.

C. Out-of-School Suspension

1. Out-of-school suspension is the removal of a student from the school environment for periods of short duration. Out-of-school suspension is to be used when other available school resources are unable to constructively remedy student misconduct.
2. A student may be suspended out of school for up to ten school days by a principal for a commission of gross or repeated infractions of school rules, regulations, policy or the law, or when the presence of the student will cause interference with the maintenance of the educational environment or the operation of the school. The principal may suspend students after conducting an investigation of the charges against the student, giving the student:

- a. Oral or written notice of the allegations against the student and
- b. The opportunity to respond to those charges.

At the principal's discretion, the student may be allowed to confront witnesses against the student or present witnesses on behalf of the student.

3. Notice of the out-of-school suspension will be mailed no later than the end of the school day following the suspension to the student's parents and the superintendent. A reasonable effort is made to personally notify the student's parents and such effort is documented by the person making or attempting to make the contact. Written notice to the parents will include the circumstances which led to the suspension and a copy of the board policy and rules pertaining to the suspension.

D. Suspensions and Special Education Students

1. Students who have been identified as special education students may be referred for a review of the student's Individual Education Program (IEP). The IEP may be revised to include a continuum of intervention strategies and programming to change the behavior.
2. Students who have not been identified as special education students may be referred for evaluation after the student's suspension to determine whether the student has a disability and is in need of special education.

STUDENT EXPULSION

Only the board may remove a student from the school environment. The removal of a student from the school environment, which includes, but is not limited to, classes and activities, is an expulsion from school.

Students may be expelled for violations of board policy, school rules or the law. It is within the discretion of the board to discipline a student by using an expulsion for a single offense or for a series of offenses depending on the nature of the offense and the circumstances surrounding the offense.

It is within the discretion of the superintendent to recommend to the board the expulsion of a student for disciplinary purposes. Only the board may take action to expel a student and to readmit the student. The principal will keep records of expulsions in addition to the board's records.

When a student is recommended for expulsion by the board, the student is provided with:

1. Notice of the reasons for the proposed expulsion written with sufficient specificity to enable the student to prepare a defense;
2. Notice of the date, time, and place of the expulsion hearing sufficiently in advance of the hearing to enable the student to obtain the assistance of counsel and to prepare a defense;
3. Notice that the student is entitled to a closed hearing unless an open hearing is specifically requested;
4. The names of the witnesses¹ and an oral or written report on the facts to which each witness testifies unless the witnesses are students whose names may be released at the discretion of the Superintendent;
5. An opportunity to present a defense against the charges and provide either oral testimony or written affidavits of witnesses on the student's behalf;
6. The right to be represented by counsel; and,
7. The results and finding of the board in writing open to the student's inspection

¹ In some cases, information concerning a student's violation of the Code of Conduct will be gained from students who the district may want to remain anonymous. The district believes that it is critically important, in certain circumstances, to protect the anonymity of students who report serious violations of the Code of Conduct to insure that violations are reported and those who report them will not be subjected to ostracism and physical reprisals. If an expulsion is based upon evidence obtained from a student who the district believes needs to remain anonymous because they may be subjected to ostracism or physical reprisals, the administration shall undertake reasonable efforts to determine the veracity of the student's report and the student's credibility.

Approved August 27, 2018 Reviewed August 27, 2018 Revised August 27, 2018

STUDENT EXPULSION

At the hearing, the student will have all of the rights given in the notice and may give an opening and closing statement in addition to calling witnesses and cross-examining adverse witnesses. The Board hearing the expulsion matter must be impartial (i.e. have no prior involvement in the situation, have no stake in the outcome, and have no personal bias or prejudice).

After the Board has heard the expulsion matter, it shall go into deliberations. No one who advocated a position at the hearing of the matter should be present during the Board's deliberations unless the other party or parties are also permitted to attend deliberations. The student has a right to a decision based solely on the evidence presented at hearing. There must be an adequate factual basis for the Board's decision. A preponderance of the evidence standard is sufficient to find the student violated the rule or policy at issue. Following the Board's deliberations, the Board shall reconvene in open session and render its decision on the superintendent's recommendation for expulsion. The student is entitled to a written decision setting out the Board's findings and conclusions as to the charges and the penalty.

In addition to these procedures, a special education student must be provided with additional procedures. A determination should be made of whether the student is actually guilty of the misconduct. A staffing team should determine whether the student's behavior is caused by the student's disability and whether the conduct is the result of inappropriate placement. Discussions and conclusions of this meeting should be recorded.

If the special education student's conduct is not caused by the disability, the student may be expelled or suspended for a long-term period following written notice to the parent and pursuant to the school district's expulsion hearing procedures. If the misconduct is caused by the disability and a change in placement is recommended, the change must be made pursuant to the placement procedures used by the school district.

GOOD CONDUCT RULE

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and abilities in the students during their school years and for their lifetimes.

Students who participate in extracurricular activities serve as ambassadors of the school district throughout the calendar year, whether away from school or at school. Students who wish to have the privilege of participating in extracurricular activities must conduct themselves in accordance with board policy and must refrain from activities which are illegal, immoral or unhealthy.

Students who fail to abide by this policy and the administrative regulations supporting it may be subject to disciplinary measures. The principal will keep records of violations of the good conduct rule.

It is the responsibility of the superintendent to develop rules and regulations for school activities. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity.

A. Waivers -

1. Full Waivers - a student will be granted a full waiver of fees charged by the school district if the student or student's parents meet the financial eligibility criteria for free meals under the Child Nutrition program, Family Investment Program, or transportation assistance under open enrollment. Temporary waivers may be applied for at any time throughout the school year and will not extend beyond the end of the school year. Temporary waivers will not be applied to fees retroactively.

B. Application - Parents or students eligible for a fee waiver will make an application on the form provided by the school district. Applications may be made at any time but must be renewed annually.

C. Confidentiality - The school district will treat the application and application process as any other student record and student confidentiality and access provisions will be followed.

D. Appeals - Denials of a waiver may be appealed to the superintendent of schools.

E. Fines or charges assessed for damage or loss to school property are not fees and will not be waived.

F. Notice - the school district will annually notify parents and students of the waiver. The following information will be included in registration materials.

Students whose families meet the income guidelines for free and reduced price lunch, the Family Investment Program (FIP), or transportation assistance under open enrollment, or who are in foster care are eligible to have their student fees waived or partially waived. Applications for organizing shall be relayed to the superintendent through the building principal.

Secondary school student-initiated, noncurriculum-related groups and student curriculum-related groups, upon receiving permission from the principal, may use school facilities for group meetings during non-instructional time.

Non-instructional time will mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings will not interfere with the orderly conduct of the education program or other school district operations. It is within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. STUDENT FUND RAISING

District-sponsored student organizations may have no more than three fund raising projects per year. Only one fund raising project may be a direct person-to-person sales campaign.

There is to be no duplication of direct person-to-person sales projects within the school year. Two organizations may not sell the same project at different times during the same year.

Other fund-raising projects, such as dances, dinners, or car washes may be duplicated, but may not involve the solicitation of funds in any person-to-person manner. For example, the FFA club could have a dance as could the student council, but neither group could solicit people individually to purchase tickets.

A request for authorization to engage in a fund raising project must be submitted well in advance on an appropriate form from the building principal's office. Such authorization must be obtained before any fund raising may take place. The authorization of the building principal must be forwarded to the district central office for final consideration. In general, no more than one fund raising project is to occur within the district at any given time, other than dances, dinners, car washes, or similar service types of projects. Students are expected to be in regular attendance the day of and the day after an extracurricular activity. Failure to adhere to this expectation may result in disciplinary action for that activity..

- Students shall be in school and attend all four blocks on the day of an extracurricular interscholastic activity. Any exception must be cleared in advance by the principal or his/her designee.
- If a student will miss a class or classes because of an extracurricular activity, he/she must have an advance excuse and turn in assignments to teachers in advance or make special arrangements for such assignments with the teachers involved.

STUDENT PROGRESS REPORTS AND CONFERENCES

Students shall receive a progress report at the end of each nine-week grading period. Students who are at risk of receiving a failing grade or whose achievement has declined, and their parents, shall be notified prior to the end of the semester in order to have an opportunity to improve their grade. The board encourages the notification of students who have made marked improvement prior to the end of the semester.

Parent-Teacher conferences to keep parents informed will be held in the fall and the spring of each school year. Conferences in the elementary grades are scheduled individually with parents and/or guardians. Conferences at the middle school and high school may be individually scheduled.

Parents, teachers, or principals may request a conference for students in grades kindergarten through twelve in addition to the scheduled conference time. Parents and students are encouraged to discuss the student's progress or other matters with the student's teacher.

STUDENT PROMOTION, RETENTION, AND ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

The retention of a student will be determined based upon the judgment of the licensed employee and the principal. When it becomes evident a student in grades kindergarten through eight may be retained in a grade level for an additional year, the parents will be informed. It is within the sole discretion of the board to retain students in their current grade level.

Students in grades nine through twelve will be informed of the required course work necessary to be promoted each year. When it becomes evident a student in these grades will be unable to meet the minimum credit requirements for the year, the student and parents will be informed. It is within the sole discretion of the board to retain students in their current grade level and to deny promotion to a student.

Students in grades kindergarten through twelve with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's graduation requirements.

Whenever a student fails to obtain necessary credits in a required course, the course must be made up or retaken as soon as possible. Whenever a student fails an elective course, the particular course failed need not be made up or retaken; however, the student must be sure he/she will have enough credits to graduate. The best procedure to follow whenever a course is failed in

each and every situation is for the student to visit with the counselor. No credit is given for courses failed.

Duplicating Courses

In most cases when a course is successfully completed it may not be retaken for credit. There are exceptions, and students should review each course description (e.g., studio art, pottery). Written permission from the principal and from the teacher is required to duplicate any course.

137

EARLY GRADUATION

Generally, students will be required to complete the necessary course work and graduate from high school at the end of grade twelve. Students may graduate prior to this time if they meet the minimum graduation requirements stated in board policy.

A student who graduates early will no longer be considered a student and will become an alumnus of the school district. However, the student who graduates early may participate in commencement exercises.

In considering early graduation, the student and his/her parents need to consider seriously the advantages and disadvantages of this option. There should be compelling reasons for pursuing such a course. It is the viewpoint of the board and the administration that students should take advantage of the opportunity to grow and mature intellectually as well as socially through four years of high school attendance. The benefits of interacting with one's peer group and enrolling in courses/activities that offer opportunity for participation in varied activities need to be given serious consideration. It is recognized, however, that a few students might better satisfy their particular needs by early completion of high school in order to pursue a career, enrollment in a post-secondary school, or to become involved in some other worthwhile endeavor.

The process to accomplish early graduation is as follows:

1. Application for early graduation shall be submitted to the principal no later than the last day of the fourth quarter of the junior year. No late requests will be considered except for transfer students entering after the start of the 4th quarter. In extreme circumstances exceptions to the above deadlines may be made upon the recommendation of the high school principal. It is strongly recommended that all students complete four years of high school.
2. The student must earn the required number of credits for graduation from this school that are in effect at the time of application. This includes specific required courses. The eighth semester of required physical education will be waived.
3. Prior to the time an application is filed, the student and his/her parents or guardian are required to meet with a school counselor to discuss the feasibility of early graduation. Such matters as the student's past record of scholastic achievement, attendance, attitude toward school/teachers, reason(s) for early graduation, and subjects to be pursued in earning credits need to be considered.
4. A request for early graduation is subject to the recommendation of the principal and the approval of the board.

138

EARLY GRADUATION

5. A student approved for early graduation forfeits his/her eligibility to participate in all school sponsored or sanctioned activities during the eighth semester and the following summer. This means you cannot participate in prom, class trip, or athletics.
6. Even though the student would earn a diploma before the other students in his or her graduating class, it would not be granted until graduation ceremonies at the end of the school year. The student could elect to take part or not take part in graduation ceremonies but in either case the principal would have to be notified of the decision by January 15.
7. School records would show the student as having met the requirements for graduation effective the last day of their final semester. Grade average and rank-in-class for the student would be determined and listed at the end of the seventh semester. A student graduating early will not be eligible for valedictorian or salutatorian. If needed, the principal will certify early graduation by letter to any college or post high school institution or prospective employer requiring proof of graduation.
8. Any student who has been approved for early graduation will be expected to achieve passing marks in elected courses and to maintain regular school attendance. Course schedule changes will not be made to suit the convenience of the student. Course changes will not be made that will adversely affect the course/section balance.
9. Prior to his/her eighth semester, a student may reverse the decision of early graduation. The student would then be required to remain in school and enroll as a full-time student during the final eighth semester.

COMMENCEMENT

Students who have met the requirements for graduation will be allowed to participate in the commencement proceedings provided they abide by the proceedings organized by the school district. It is the responsibility of the principal to solicit input from each graduating class regarding the proceedings for their commencement.

Failure of a student to participate in commencement will not be a reason for withholding the student's final progress report or diploma certifying the student's completion of high school.

The board may exclude a student from participating in commencement exercises for violation of school rules for orderly operation of the schools.

PARENTAL INVOLVEMENT

Parental involvement is an important component in a student's success in school. The board encourages parents to become involved in their child's education to ensure the child's academic success. To this end, the board will address the following items:

1. How the board will involve parents in the development of the Title I plan, the process for school review of the plan and the process for improvement. Parent advisory groups exist at all Title I attendance centers. The Title I program is discussed at least annually in terms of what assistance is available to students, along with the opportunity for parental input into ways to improve the program. In addition, parents are involved in the Student Assistance Team process, and that is the venue through which students are referred for Title I services.
2. How the board will provide the coordination, technical assistance and other support necessary to assist participating schools in planning and implementing effective parent involvement activities to improve student academic achievement and school performance. Through the annual goal-setting process, the board will promote effective parental involvement in all school activities to improve student achievement for **ALL** students.
3. Build the schools' and parents' capacity for strong parental involvement. Each Title I attendance center will have regular meetings of the parent advisory groups. Annually, a Title I evening will be held during which parents, students, and teachers will have the opportunity to interact, with parents learning strategies that can be effectively implemented at home. Parents are part of the Student Assistance Team process. Title I teachers are responsible for updating parents and keeping them informed about the progress of their child(ren).
4. Coordinate and integrate parental involvement strategies under Title I with other programs such as Reading First, and other initiatives. Title I teachers are part of the professional development activities for all teachers. The recent focus has been on the implementation of Reading First instructional strategies, which has been a topic at the meetings of the parent advisory groups.

142

PARENTAL INVOLVEMENT

5. Conduct with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy in improving the academic quality of the school served including identifying barriers to greater participation by parents in Title I activities (with particular attention to low-income parents, Limited English Proficient (LEP) parents, minorities, parents with disabilities and parents with low literacy) and use the findings of the evaluation to design strategies for more effective parental involvement and to revise, as necessary, the parental involvement policies. An evaluation of the Title I program will be accomplished annually at the Title I evening for all parents of Title I students.
6. Involve parents in Title I activities. Each Title I attendance center will have regular meetings of the parent advisory groups. Annually, a Title I evening will be held during which parents, students, and teachers will have the opportunity to interact, with parents learning strategies that can be effectively implemented at home. Title I teachers are responsible for updating parents and keeping them informed about the progress of their child(ren). The district Title I coordinator will present an annual report to the Board in June regarding parental involvement and parental evaluations of the Title I program.

The board will review this policy annually. The superintendent is responsible for notifying parents of this policy annually or within a reasonable time after it has been amended during the school year.

STUDENT RECORDS

The board recognizes the importance of maintaining student records and preserving their confidentiality. For purposes of this policy and other policies relating to student records, student is defined as an enrolled individual in a pre-kindergarten through twelfth grade, including children in school district-sponsored child care programs. Student records containing personally identifiable information are kept confidential at collection, storage, disclosure and destruction stages.

The board secretary is the custodian of student records. Student records may be maintained in the central administration office or administrative office of the student's attendance center.

Parents and eligible students will have access to the student's records during the regular business hours of the school district. An eligible student is a student who has reached eighteen years of age or is attending an institution of postsecondary education at the post high school level. Parents of an eligible student are provided access to the student records only with the written permission of the eligible student unless the eligible student is defined as a dependent by the Internal Revenue Code. In that case, the parents may be provided access without the written permission of the student. A representative of the parents or eligible student, who has received written permission from the parents or eligible student, may inspect and review a special education student's records. Parents, other than parents of an eligible student, may be denied access to a student's records if the school district has a court order stating such or when the district has been advised under the appropriate laws that the parents may not access the student records. Parents may inspect an instrument used for the purpose of collection of student personal information prior to the instrument's use.

A student record may contain information on more than one student. Parents will have the right to access the information relating to their student or to be informed of the information. Eligible students will also have the right to access the information relating to themselves or be informed of the information.

Parents and eligible students will have a right to access the student's records upon request without unnecessary delay and in no instance more than forty-five calendar days after the request is made. Parents, an eligible student or an authorized representative of the parents will have the right to access the student's records prior to an Individualized Education Program (IEP) meeting or hearing.

STUDENT RECORDS

Copies of student records will be provided if failure to do so would effectively prevent the parents or student from exercising the right to access the student records. Fees for copies of the records are waived if it would prevent the parents or student from accessing the records. A fee may not be charged to search or retrieve information from student records.

Upon the request of parents or an eligible student, the school district will provide an explanation and interpretation of the student records and a list of the types and locations of education records collected, maintained or used by the school district.

If the parents or an eligible student believes the information in the student records is inaccurate, misleading or violates the privacy or other rights of the student, the parents or an eligible student may request that the school district amend the student records. The school district will decide whether to amend the student records within a reasonable time after receipt of the request. If the school district determines an amendment is made to the student record, the school district will make the amendment and inform the parents or the eligible student of the decision in writing.

If the school district determines that amendment of the student's record is not appropriate, it will inform the parents or the eligible student of their right to a hearing before the hearing officer provided by the school district. If the parents' and the eligible student's request to amend the student record is further denied following the hearing, the parents or the eligible student are informed that they have a right to place an explanatory letter in the student record commenting on the school district's decision or setting forth the reasoning for disagreeing with the school district. Additions to the student's records will become a part of the student record and be maintained like other student records. If the school district discloses the student records, the explanation by the parents will also be disclosed.

Student records may be disclosed in limited circumstances without parental or eligible student's written permission. This disclosure is made on the condition that the student record will not be disclosed to a third party without the written permission of the parents or the eligible student. This disclosure may be made to the following individuals or under the following circumstances:

- to school officials within the school district and AEA personnel whom the superintendent has determined to have a legitimate educational interest, including, but not limited to, board members, employees, school attorney, auditor, health professionals, and individuals serving on official school committees;

STUDENT RECORDS

- to officials of another school district in which the student wishes to enroll, provided the other school district notifies the parents the student records are being sent and the parents have an opportunity to receive a copy of the records and challenge the contents of the records unless the annual notification includes a provision that records will automatically be transferred to new school districts;
- to the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education or state and local educational authorities;
- in connection with financial aid for which the student has applied or which the student has received if the information is necessary to receive the financial aid;
- to organizations and/or their authorized representatives conducting for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if the study does not release personally identifiable information and their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted;
- to accrediting organizations;
- to parents of a dependent student as defined in the Internal Revenue Code;
- to comply with a court order or judicially issued subpoena;
- consistent with an interagency agreement between the school district and juvenile justice agencies;
- to authorized representatives of the Secretary of Agriculture or authorized representative from the Food and Nutrition Service for the purposes of conducting program monitoring, evaluations, and performance measurements of state and local educational and other agencies and institutions receiving funding for or providing a school lunch program for which the results will be reported in an aggregate form that does not identify any individual, provided that the data collected shall be protected in a manner that will not permit the personal identification of students and their parents to anyone other than those authorized under this paragraph and any personally identifiable data shall be destroyed when the data are no longer needed for program monitoring, evaluations, and performance measurements;
- to an agency caseworker or other representative of a state or local child welfare agency or tribal organization authorized to access a student's case plan when such agency or organization is legally responsible for the care and protection of the student, provided that the education records or the personally identifiable information contained in such records of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the state or tribal laws applicable to protecting the confidentiality of a student's education records;

STUDENT RECORDS

- in connection with a health or safety emergency; or,
- as directory information.

The superintendent will keep a list of the individuals and their positions who are authorized to view a special education student's records without the permission of the parents or the eligible student. Individuals not listed are not allowed access without parental or an eligible student's written permission. This list must be current and available for public inspection and updated as changes occur.

The superintendent will also keep a list of individuals, agencies and organizations which have requested or obtained access to a student's records, the date access was given and their legitimate educational interest or purpose for which they were authorized to view the records. The superintendent, however, does not need to keep a list of the parents, authorized educational employees, officers and agencies of the school district who have accessed the student's records. This list for a student record may be accessed by the parents, the eligible student and the custodian of student records.

Permanent student records, including a student's name, address, phone number, grades, attendance record, classes attended, grade level completed and year completed may be maintained without time limitation. Permanent student records will be kept in a fire-safe vault.

When personally identifiable information, other than permanent student records, no longer needs to be maintained by the school district to provide educational services to a special education student, the parents or eligible student are notified. This notice is normally given after a student graduates or otherwise leaves the school district. If the parents or eligible student request that the personally identifiable information be destroyed, the school district will destroy the records. Prior to the destruction of the records, the school district must inform the parents or eligible student the records may be needed by the parents or eligible student for social security benefits or other purposes. In the absence of parents or an eligible student's request to destroy the records, the school district must maintain the records for at least three years after an individual is determined to be no longer eligible for special education.

The school district will cooperate with the juvenile justice system in sharing information contained in permanent student records regarding students who have become involved with the juvenile justice system. The school district will enter into an interagency agreement with the juvenile justice agencies involved.

149

STUDENT RECORDS

The purpose of the agreement is to allow for the sharing of information prior to a student's adjudication in order to promote and collaborate between the school district and the agencies to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

The school district may share any information with the agencies contained in a student's permanent record, which is directly related to the juvenile justice system's ability to effectively serve the student. Prior to adjudication information contained in the permanent record may be disclosed by the school district to the parties without parental consent or court order.

Information contained in a student's permanent record may be disclosed by the school district to the agencies after adjudication only with parental consent or a court order. Information shared pursuant to the agreement is used solely for determining the programs and services appropriate to the needs of the student or student's family or coordinating the delivery of programs and services to the student or student's family. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian.

Confidential information shared between the school district and the agencies will remain confidential and will not be shared with any other person, unless otherwise provided by law. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian. The school district may discontinue information sharing with an agency if the school district determines that the agency has violated the intent or letter of the agreement.

The school district will provide training or instruction to employees about parents' and eligible students' rights under this policy. Employees will also be informed about the procedures for carrying out this policy.

It is the responsibility of the superintendent to annually notify parents and eligible students of their right to inspect and review the student's records. The notice is given in a parents' or eligible student's native language. Should the school district collect personal information from students for the purposes of marketing or selling that information, the school district will annually notify parents of such activity.

STUDENT RECORDS REGULATION

Student records are all official records, files, and data directly related to students, including all material incorporated into each student's cumulative record folder and intended for school use or to be available to parties outside the school or school system specifically including, but not necessarily limited to: dates of attendance; academic work completed; level of achievement (grades, standardized test scores); attendance data; scores on standardized intelligence, aptitude, and psychological tests; interest inventory results; health data; family background information; teacher or counselor ratings and observations; and verified reports of serious or recurrent behavior patterns.

The intent of this regulation is to establish procedures for granting requests from parents for access to their child's records, use of the data, and procedures for its transmittal within forty-five calendar days.

A. Access to Records

1. The parent or legal guardian of a student will have access to these records upon written request to the board secretary.

The parent or legal guardian will, upon written request to the board secretary, have the opportunity to receive an interpretation of the records, have the right to question the data, and, if a difference of opinion is noted, is permitted to file a letter in the cumulative folder stating the dissenting person's position. If further challenge is made to the record, the normal appeal procedures established by school policy will be followed.

A student, eighteen years or older, has the right to determine who, outside the school system, has access to the records. Parents of students who are 18 years or older but still dependents for income tax purposes may access the student's records without prior permission of the student.

2. School officials having access to student records are defined as having a legitimate educational interest. A school official is a person employed by the school district as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school district has contracted to perform a special task (such as an attorney, auditor, AEA employee, medical consultant, or therapist); or a parent or student serving on an official committee, such as disciplinary or grievance committee or student assistance team, or assisting another school official in performing his or her tasks.

7. The parents may appeal the superintendent's decision, or the hearing officers decision if the superintendent was unable to hear the appeal, to the board within ten (10) working days. It is within the discretion of the board to hear the appeal.

ANNUAL NOTICE

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. They are:

- (1) The right to inspect and review the student’s education records within 45 days of the day the district receives a request for access.

Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- (2) The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading or in violation of the student’s privacy rights.

Parents or eligible students may ask the school district to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the district decides not to amend the record as requested by the parent or eligible student, the district will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- (3) The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, AEA employees, medical consultant, or therapist); or a parent or student serving

on an official committee, such as a disciplinary or grievance committee or student assistance team, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. (Note: FERPA requires a school district to make a reasonable attempt to notify the parent or eligible student of the records request unless it states in its annual notification that it intends to forward records on request.)

- (4) The right to inform the school district that the parent does not want directory information, as defined below, to be released. Directory information can be released without prior parental consent.

Any student over the age of eighteen or parent not wanting this information released to the public must make object in writing by the first Friday in September to the principal. The objection needs to be renewed annually.

NAME, ADDRESS, TELEPHONE LISTING, DATE AND PLACE OF BIRTH, GRADE LEVEL, ENROLLMENT STATUS, MAJOR FIELD OF STUDY, PARTICIPATION IN OFFICIALLY RECOGNIZED ACTIVITIES AND SPORTS, WEIGHT AND HEIGHT OF MEMBERS OF ATHLETIC TEAMS, DATES OF ATTENDANCE, DEGREES AND AWARDS RECEIVED, THE MOST RECENT PREVIOUS SCHOOL OR INSTITUTION ATTENDED BY THE STUDENT, PHOTOGRAPH AND LIKENESS AND OTHER SIMILAR INFORMATION.

As with all directory information, military recruiters and postsecondary educational institutions may legally access this information without prior parental consent. Parents not wanting military recruiters or postsecondary institutions to access the information must ask the school district to withhold the information. Also, school districts that provide postsecondary institutions and potential employers access to students must provide the same right of access to military recruiters. Parents not wanting military recruiters to contact their children, have the right to deny permission for this activity.

- (5) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office, U.S. Department of Education,
400 Maryland Ave., SW, Washington, DC, 20202-4605.

The School District may share any information with the Parties contained in a student's permanent record, which is directly related to the juvenile justice system's ability to effectively serve the student. Prior to adjudication, information contained in the permanent record may be disclosed by the School District to the Parties without parental consent or court order. Information contained in a student's permanent record may be disclosed by the School District to the Parties after adjudication only with parental consent or a court order. Information shared pursuant to the agreement is used solely for determining the programs and services appropriate to the needs of the student or student's family or coordinating the delivery of programs and services to the student or student's family. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian. Information obtained from others shall not be used for the basis of disciplinary action of the student. This agreement only governs a school district's ability to share information and the purposes for which that information can be used.

ANNUAL NOTICE

La FERPA (Family Educational Rights and Privacy Act), la ley que trata sobre el derecho a la privacidad y los derechos educativos de la familia, le depara a los padres y a los estudiantes mayores de dieciocho años (estudiantes emancipados) ciertos derechos con respecto a los expedientes académicos del estudiante. Estos derechos están a continuación:

- (1) El derecho a inspeccionar y a revisar los expedientes académicos del estudiante dentro de un plazo de 45 días a partir de la fecha en que el distrito reciba una solicitud para obtener acceso a los expedientes.

Los padres o los estudiantes emancipados deben someter una solicitud por escrito al director de la escuela (o al oficial escolar apropiado) identificando el expediente o los expedientes que ellos desean inspeccionar. El director hará arreglos para el acceso a los mismos y le notificará al padre o a la madre o al estudiante emancipado de la hora y el lugar en donde se pueden inspeccionar los expedientes.

- (2) El derecho a solicitar una enmienda de los expedientes académicos del estudiante, los cuales piensan los padres o el estudiante emancipado que están incorrectos, que son engañosos o que quebrantan los derechos del estudiante a su privacidad.

Si los padres o los estudiantes emancipados creen que un expediente está incorrecto o es engañoso, pueden pedirle al distrito escolar que enmiende el expediente. Ellos deben escribirle al director de la escuela, identificando claramente la parte del expediente que ellos desean cambiar y especificando por qué el expediente está incorrecto o es engañoso.

Si el distrito escolar decide no enmendar el expediente, según la solicitud de los padres o de los estudiantes emancipados; el distrito notificará a los padres o al estudiante emancipado de esta decisión y les informará de su derecho a tener una audiencia con relación a la solicitud de enmienda. Cuando se le notifique del derecho a tener una audiencia, el padre, la madre o el estudiante emancipado también recibirá información adicional sobre los procedimientos de la audiencia.

- (3) El derecho al consentimiento de la divulgación de información contenida en el expediente académico del estudiante y que lo identifica personalmente, a la excepción de lo que autoriza FERPA divulgar sin consentimiento.

Una excepción que permite la divulgación de información sin consentimiento es la divulgación de información a los oficiales escolares que tienen intereses educativos legítimos. Un oficial escolar es una persona que es empleado del distrito ya sea como administrador, supervisor, instructor, personal auxiliar (incluyendo el personal médico o de servicios de salud y el personal policial), una persona miembro de la junta escolar, una persona o compañía con quien el distrito ha contratado para realizar una tarea especial (tal

168

como un abogado, interventor de cuentas, empleados del AEA (Agencias de Educación Regionales), asesor médico o terapeuta), o como un padre o estudiante que participa en un comité oficial, tal como un comité disciplinario o de quejas, o un equipo auxiliar de estudiantes, o como una persona que ayuda a otro oficial escolar a realizar sus tareas.

Un oficial escolar tiene un interés escolar legítimo si el oficial necesita revisar un expediente académico a fin de cumplir con su obligación profesional.

[Previa solicitud, el distrito divulgará sin consentimiento los expedientes académicos a los oficiales de otro distrito escolar en el cual el estudiante tiene la intención de matricularse. (Nota: A menos que en su notificación anual haya una declaración indicando que tienen la intención de enviar los expedientes al solicitante cuando éste los solicite. FERPA exige que un distrito escolar haga un intento razonable para notificar al padre o al estudiante emancipado de que han recibido una solicitud para la obtención de los expedientes académicos).

- (4) El derecho de informarle al distrito escolar de que el padre o la madre no quieren que se comunique al público la información contenida en el directorio, tal como se define abajo. Cualquier estudiante mayor de dieciocho años de edad o padre o madre que no quiera que se comunique al público esta información puede hacer una objeción de los escribiéndole al director a más tardar el (date) de (month) de (year). La objeción tiene que ser renovada anualmente.

Nombre, dirección, número de teléfono, fecha y lugar de nacimiento, materia de estudio principal, participación en deportes y en actividades reconocidas oficialmente, peso y estatura de los miembros de los equipos atléticos, fechas de asistencia a la escuela, diplomas y premios recibidos, la escuela o institución docente más reciente a la que asistió el estudiante, fotografía o imagen u otra información parecida.

- (5) El derecho a presentar una queja al U.S. Department of Education (Ministerio de Educación de los Estados Unidos) con respecto a las faltas supuestas del distrito en cumplir con los requisitos de FERPA. A continuación encontrará el nombre y la dirección de la oficina que maneja FERPA:

Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., S.W., Washington, D.C., 20202-4605.

El Distrito Escolar puede intercambiar con cualquiera de las Partes cualquier información contenida en el expediente académico permanente del estudiante. Esta información debe estar relacionada directamente con la capacidad del sistema de justicia de menores para servir efectivamente al estudiante. Antes de la adjudicación, la información contenida en el

expediente permanente puede ser divulgado por parte del Distrito Escolar a las Partes sin consentimiento de los padres y sin una orden judicial. Después de la adjudicación, la información contenida en el expediente permanente del estudiante solamente podrá ser divulgada con consentimiento de los padres o por medio de una orden judicial. La información que se intercambie conforme con un acuerdo, será utilizado únicamente para determinar los programas y los servicios apropiados para las necesidades del estudiante o de la familia del estudiante. También se podrá utilizar para coordinar la entrega de los programas y los servicios al estudiante o a la familia del estudiante. A menos que se obtenga un consentimiento por escrito de parte de los padres de un estudiante, del guardián o del custodio legal o real del estudiante, la información que se intercambie en virtud de un acuerdo, no será admisible en ningún procedimiento judicial que tenga lugar antes de una audiencia de disposición. Este acuerdo solamente rige la capacidad de un distrito escolar para intercambiar información y rige los propósitos para los cuales se puede utilizar esa información.

El propósito para el cual se intercambia la información antes de la adjudicación del estudiante es para mejorar la seguridad del colegio, reducir el uso ilícito de drogas y de alcohol, reducir las inasistencias a clase, reducir las suspensiones en el colegio y fuera del colegio, y para apoyar las alternativas a las suspensiones y expulsiones en el colegio y fuera del colegio. Estas alternativas proporcionan programas educativos estructurados y bien supervisados, suplidos por servicios adecuados y coordinados que están diseñados para corregir comportamientos que causan inasistencias a clase, suspensiones y expulsiones. Estos programas apoyan a los estudiantes en completar exitosamente su educación.

El individuo que solicite la información debe ponerse en contacto con el director del edificio en el cual el estudiante está actualmente matriculado o en el que estuvo matriculado. El director entonces enviará los expedientes dentro de los diez días laborables que le siguen a la fecha en que se recibió la solicitud.

La información confidencial que se intercambie entre las Partes y el distrito escolar permanecerá en confianza y no se intercambiará con ninguna otra persona salvo que esté dispuesto por ley. A menos que se obtenga el consentimiento por escrito de parte del padre o la madre del estudiante del guardián o del custodio real o legal del estudiante, ninguna información intercambiada según el acuerdo será admisible en ningún procedimiento judicial que tenga lugar antes de la audiencia.

STUDENT LIBRARY CIRCULATION RECORDS

Student library circulation records are designed to be used internally to assist in the orderly administration of the school district libraries and media center. As a general rule, student library circulation records are considered confidential records and will not be released without parental consent. Individuals who may access such records include a student's parents, the student, authorized licensed employees, authorized government officials from the U.S. Comptroller General, the Secretary of Education, the Commissioner and Director of the National Institute of Education, and the Assistant Secretary for Education and State Education Department. Appropriate authorities in a health or safety emergency may access the student's library circulation records without the approval or the notification of the student's parents. Parents may not access records, without the student's permission, of a student who has reached the age of majority or who is attending a post-secondary educational institution unless the student is considered a dependent for tax purposes.

It is the school librarian's responsibility, as the person maintaining the student library circulation records, to approve requests for access to student library circulation records. Students' library circulation records may be accessed during the regular business hours of the school district. If copies of documents are requested, a fee for such copying is charged.

STUDENT HEALTH AND IMMUNIZATION CERTIFICATES

Students desiring to participate in athletic activities or enrolling in kindergarten or first grade in the school district will have a physical examination by a licensed physician and provide proof of such an examination to the school district. A physical examination and proof of such an examination may be required by the administration for students in other grades enrolling for the first time in the school district.

A certificate of health stating the results of a physical examination and signed by the physician is on file at the attendance center. Each student will submit an up-to-date certificate of health upon the request of the superintendent. Failure to provide this information may be grounds for disciplinary action.

Students enrolling for the first time in the school district will also submit a certificate of immunization against diphtheria, pertussis, tetanus, poliomyelitis, rubeola, rubella, and other immunizations required by law. The student may be admitted conditionally to the attendance center if the student has not yet completed the immunization process but is in the process of doing so. Failure to meet the immunization requirement will be grounds for suspension, expulsion or denial of admission. Upon recommendation of the Iowa Department of Education and Iowa Department of Public Health, students entering the district for the first time may be required to pass a TB test prior to admission. The district may conduct TB tests of current students.

Students enrolling in kindergarten or any grade in elementary school in the district will have, at a minimum, a dental screening performed by a licensed medical professional (physician, nurse, physician assistant, dentist, dental hygienist) sometime between the student turning three (3) years of age and four (4) months following the student's enrollment in the district, and will provide proof of such a screening to the district. Students enrolling in any grade in high school in the district will have, at a minimum, a dental screening performed by a licensed dentist or dental hygienist sometime between one (1) year prior to the student's enrollment in the district and four (4) months following the student's enrollment in the district, and will provide proof of such a screening to the district.

Parents or guardians of students enrolling in kindergarten in the district shall be provided a student vision card provided by the Iowa optometric association and as approved by the department of education. The goal of the district is that every child receives an eye examination by age seven, as needed.

Exemptions from the immunization requirement in this policy will be allowed only for medical or religious reasons recognized under the law. The student must provide a valid Iowa State Department of Health Certificate of Immunization Exemption to be exempt from this policy.

ADMINISTRATION OF MEDICATION TO STUDENTS

Persons administering medication shall include the licensed registered nurse (school nurse), physician, persons who have successfully completed a medication administration course, or be an authorized practitioner, including parents, or in the nurse's absence, by the nurse's designee. A qualified designee is a person who has been trained under the State Department of Health guidelines. A medication administration course and periodic update shall be conducted by a registered nurse or licensed pharmacist, and a record of course completion kept on file at the school. Students who have demonstrated competence in administering their own medication may self-administer their medication.

Some students may need prescription and nonprescription medication to participate in their educational program. These students shall receive medication concomitant with their educational program. When administration of the medication requires ongoing professional health judgment, an individual health plan shall be developed by the licensed health personnel with the student and the student's parent.

Students may be required to take medication during the school day. Medication is administered by the school nurse, or in the nurse's absence, by a person who has successfully completed an administration of medication course reviewed by the Board of Pharmacy Examiners. The course is conducted by a registered nurse or licensed pharmacist. A record of course completion will be maintained by the school District.

Students who have demonstrated competence in administering their own medications may self-administer their medication as long as all other relevant portions of this policy have been complied with by the student and the student's parent or guardian. A written statement by the student's parent/guardian shall be on file requesting co-administration of medication, when competence has been demonstrated.

Medication will not be administered without written authorization that is signed and dated from the parent, and the medication must be in the original container which is labeled by the pharmacy or the manufacturer with the name of the child, name of the medication, the time of the day which it is to be given, the dosage, and the duration. Written authorization will also be secured when the parent requests student co-administration of medication when competency is demonstrated. When administration of the medication requires ongoing professional health judgment, an individual health plan will be developed by the licensed health personnel with the student and the student's parents. It is the parent's responsibility to ensure that the medication is current; that all information regarding the medication is current; and that the information provided to the district, including, but not limited to the written authorization, is current.

ADMINISTRATION OF MEDICATION TO STUDENTS

A written medication administration record shall be on file including:

- date;
- student's name;
- prescriber or person authorizing administration;
- medication;
- medication dosage;
- administration time;

By law, students with asthma or other airway constricting diseases may self-administer their medication upon written approval of their parents and prescribing physician regardless of competency. Students do not have to prove competency to the school district. Emergency protocol for medication-related reactions will be in place.

Medication shall be stored in a secured area unless an alternate provision is documented.

The Superintendent shall be responsible, in conjunction with the school nurses, for developing rules and regulations governing the administration of medication, prescription and nonprescription, including emergency protocols, to students and for ensuring persons administering medication have taken the prescribed course and periodically review the prescribed course. Annually, each student shall be provided with the requirements for administration of medication at school.

No over-the-counter medication shall be administered at school, unless the school has the parent/guardian's written permission.

Prescription medication will be dispersed to students during a school day only if the following requirements are met:

1. Medication must be in the original container, from the pharmacy with the directions clearly stated. This serves two purposes: signifies permission from the doctor and includes directions from the pharmacist. Pharmacists will supply another labeled container for school upon request when the prescription is filled. **NO BAGGIES OR ENVELOPES WILL BE ACCEPTED AT SCHOOL. It is the parent's responsibility to ensure that the medication is current and that all information regarding the medication is current.**
2. Parents/guardians must give written authorization for the administration of the medication. It is the parent's responsibility to ensure that the information provided to the district, including, but not limited to the written authorization, is current.

Students are to bring all medications to the school office immediately upon their arrival at school. Students are not to carry over-the-counter medications with them during the school day unless approved by the school nurse. Students are not to carry prescription medication with them during the school day unless ordered by the physician and cleared by the school nurse.

Medication on school premises shall be kept in a locked container in a limited access storage space. Only appropriate personnel shall have access to the locked container. Each school or facility shall designate in writing the specific locked and limited access space within each building to store pupil medication. More specifically, the following requirements shall be followed:

1. In each building in which a full-time registered nurse is assigned, access to medication locked in a designated space shall be under the authority of the nurse.
2. In each building in which a less than full-time registered nurse is assigned, access to the medication shall be under the authority of the principal.

Emergency protocols for medication-related reactions shall be posted.

COMMUNICABLE DISEASES - STUDENTS

Students with a communicable disease will be allowed to attend school provided their presence does not create a substantial risk of illness or transmission to other students or employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

A student will be excluded from school when the student's condition has been determined to be injurious to the health of others or when the student is too ill to attend school. The health risk to an immuno-depressed student attending school shall be determined by the student's personal physician. The health risk to others in the school environment from the presence of a student with a communicable disease shall be determined on a case-by-case basis by the student's physician and a physician selected by the school district or public health officials.

Since there may be greater risks of transmission of a communicable disease for some persons with certain conditions than for other persons infected with the same disease, these special conditions: the risk of transmission of the disease, the effect upon the educational program, the effect upon the student, and other factors deemed relevant by public health officials or the superintendent shall be considered in assessing the student's continued attendance at school. The superintendent may require medical evidence that students with a communicable disease are able to attend school.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

A student shall notify the Superintendent or the school nurse when the student learns the student has a communicable disease. It shall be the responsibility of the Superintendent, when the Superintendent or school nurse, upon investigation, has knowledge that a reportable communicable disease is present, to notify the Iowa Department of Public Health

Health data of a student is confidential and it shall not be disclosed to third parties, except in cases of reportable communicable diseases.

For more information on communicable disease charts, and reporting forms, go to the Iowa Department of Public Health Web site: <http://www.idph.state.ia.us>

STUDENT ILLNESS OR INJURY AT SCHOOL

The district and the board assume no responsibility for medical treatment of students. The building principal or designee shall direct the immediate care of ill or injured persons who come within his/her area of responsibility. At each school, procedures for the proper handling of such emergencies shall be developed and made known to the staff.

When a student becomes ill or is injured at school, the school district will attempt to notify the student's parents as soon as possible. If a parent cannot be reached, the ill or injured child shall be transported home, to the hospital, or to a physician's office by a member of the school staff. Further medical attention is the responsibility of the parent or guardian, or the person designated for emergencies.

The school district, while not responsible for medical treatment of an ill or injured student, will have employees present administer emergency or minor first aid if possible. An ill or injured child will be turned over to the care of the parents or qualified medical employees as quickly as possible.

It is the responsibility of the principal or designee to file an accident report with the superintendent within twenty-four hours after the student is injured.

Annually, parents are required to complete a medical emergency authorization form indicating the procedures to be followed, if possible, in an emergency involving their child. The authorization form will also include the phone numbers of the parents and alternative numbers to call in case of an injury or illness.

STUDENT SPECIAL HEALTH SERVICES

The board recognizes that some special education students need special health services during the school day. These students will receive special health services in conjunction with their individualized education program.

The superintendent, in conjunction with licensed health personnel, will establish administrative regulations for the implementation of this policy.

Approved August 27, 2018 Reviewed August 27, 2018 Revised August 27, 2018

192

SPECIAL HEALTH SERVICES REGULATION

Some students who require special education need special health services in order to participate in the educational program. These students will receive special health services in accordance with their individualized educational program.

A. Definitions

“Assignment and delegation” - occurs when licensed health personnel, in collaboration with the education team, determine the special health services to be provided and the qualifications of individuals performing the health services. Primary consideration is given to the recommendation of the licensed health personnel. Each designation considers the student’s special health service. The rationale for the designation is documented. If the designation decision of the team differs from the licensed health professional, team members may file a dissenting opinion.

“Co-administration” - the eligible student’s participation in the planning, management and implementation of the student’s special health service and demonstration of proficiency to licensed health personnel.

“Educational program” - includes all school curricular programs and activities both on and off school grounds.

“Education team” - may include the eligible student, the student’s parent, administrator, teacher, licensed health personnel, and others involved in the student’s educational program.

“Health assessment” - health data collection, observation, analysis, and interpretation relating to the eligible student’s educational program.

“Health instruction” - education by licensed health personnel to prepare qualified designated personnel to deliver and perform special health services contained in the eligible student’s health plan. Documentation of education and periodic updates are on file at school.

“Individual health plan” - the confidential, written, preplanned and ongoing special health service in the educational program. It includes assessment, planning, implementation, documentation, evaluation and a plan for emergencies. The plan is updated as needed and at least annually. Licensed health personnel develop this written plan with the education team.

“Licensed health personnel” - includes licensed registered nurse, licensed physician, and other licensed health personnel legally authorized to provide special health services and medications.

“Prescriber” - licensed health personnel legally authorized to prescribe special health services and medications.

“Qualified designated personnel” - persons instructed, supervised and competent in implementing the eligible student’s health plan.

“Special health services” - includes, but is not limited to, services for eligible students whose health status (stable or unstable) requires:

- Interpretation or intervention,
- Administration of health procedures and health care, or
- Use of a health device to compensate for the reduction or loss of a body function.

“Supervision” - the assessment, delegation, evaluation and documentation of special health services by licensed health personnel. Levels of supervision include situations in which licensed health personnel are:

- physically present.
- available at the same site.
- available on call.

B. Licensed health personnel will provide special health services under the auspices of the school. Duties of the licensed personnel include the duty to:

- Participate as a member of the education team.
- Provide the health assessment.
- Plan, implement and evaluate the written individual health plan.
- Plan, implement and evaluate special emergency health services.
- Serve as liaison and encourage participation and communication with health service agencies and individuals providing health care.
- Provide health consultation, counseling and instruction with the eligible student, the student’s parent and the staff in cooperation and conjunction with the prescriber.
- Maintain a record of special health services. The documentation includes the eligible student’s name, special health service, prescriber or person authorizing, date and time, signature and title of the person providing the special health service and any unusual circumstances in the provision of such services.
- Report unusual circumstances to the parent, school administration, and prescriber.

194

- Assign and delegate to, instruct, provide technical assistance and supervise qualified designated personnel.
 - Update knowledge and skills to meet special health service needs.
- C. Prior to the provision of special health services the following will be on file:
- Written statement by the prescriber detailing the specific method and schedule of the special health service, when indicated.
 - Written statement by the student's parent requesting the provision of the special health service.
 - Written report of the preplanning staffing or meeting of the education team.
 - Written individual health plan available in the health record and integrated into the IEP or IFSP.
- D. Licensed health personnel, in collaboration with the education team, will determine the special health services to be provided and the qualifications of individuals performing the special health services. The documented rationale will include the following:
- Analysis and interpretation of the special health service needs, health status stability, complexity of the service, predictability of the service outcome and risk of improperly performed service.
 - Determination that the special health service, task, procedure or function is part of the person's job description.
 - Determination of the assignment and delegation based on the student's needs.
 - Review of the designated person's competency.
 - Determination of initial and ongoing level of supervision required to ensure quality services.
- E. Licensed health personnel will supervise the special health services, define the level of supervision and document the supervision.
- F. Licensed health personnel will instruct qualified designated personnel to deliver and perform special health services contained in the eligible individual health plan. Documentation of instruction and periodic updates are on file at school.
- G. Parents will provide the usual equipment, supplies and necessary maintenance for such. The equipment is stored in a secure area. The personnel responsible for the equipment are designated in the individual health plan. The individual health plan will designate the role of the school, parents, and others in the provision, supply, storage and maintenance of necessary equipment.

195

EMERGENCY AND SAFETY PLANS AND DRILLS

Students will be informed of the appropriate action to take in an emergency. Emergency drills for fire, weather, other disasters, and school safety issues are conducted each school year. At least one of each type of drill should be held as early in the school year as possible so that all children will be thoroughly familiar with emergency procedures.

Each attendance center will develop and maintain a written plan containing emergency, disaster, and school safety procedures. The plan will be communicated to and reviewed with employees. Employees will participate in emergency and school safety drills. Licensed employees are responsible for instructing the proper techniques to be followed in the drill.

Approved August 27, 2018 Reviewed August 27, 2018 Revised August 27, 2018

196

STUDENT INSURANCE

Students will have the opportunity to participate in the health and accident insurance plan selected by the school district. The cost of the health and accident insurance program is borne by the student or the parent/guardian of the student. Participation in the insurance health and accident plan is not a contract with the school district, but rather, a contract between the insurance company and the student.

Students participating in intramural or extracurricular athletics are required to have health and accident insurance. The student will bring written proof of insurance or participate in the health and accident insurance program selected by the school district.

WELLNESS POLICY

The board promotes healthy students by supporting wellness, good nutrition and regular physical activity as a part of the total learning environment. The school district supports a healthy environment where students learn and participate in positive dietary and lifestyle practices. By facilitating learning through the support and promotion of good nutrition and physical activity, schools contribute to the basic health status of students. Improved health optimizes student performance potential.

The school district provides a comprehensive learning environment for developing and practicing lifelong wellness behaviors. The entire school environment, not just the classroom, shall be aligned with healthy school district goals to positively influence a student's understanding, beliefs and habits as they relate to good nutrition and regular physical activity.

The school district supports and promotes proper dietary habits contributing to students' health status and academic performance. All foods available on school grounds and at school-sponsored activities during the instructional day should meet or exceed the school district nutrition standards. Foods should be served with consideration toward nutritional integrity, variety, appeal, taste, safety and packaging to ensure high-quality meals.

The school district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price meals. Toward this end, the school district may utilize electronic identification and payment systems; promote the availability of meals to all students; and/or use nontraditional methods for serving meals, such as "grab-and-go" or classroom breakfast.

The school district will develop a local wellness policy committee comprised of representatives of the board, parents, leaders in food/exercise authority and employees. The local wellness policy committee will develop a plan to implement and measure the local wellness policy and monitor the effectiveness of the policy. The committee will designate an individual to monitor implementation and evaluation the implementation of the policy. The committee will report annually to the board regarding the effectiveness of this policy.

The nutrition guidelines for all foods available will focus on promoting student health and reducing childhood obesity at each school building or in the school district.

Approved August 27, 2018 Reviewed August 27, 2018 Revised August 27, 2018

198

NUTRITION EDUCATION AND PROMOTION

The school district will provide nutrition education and engage in nutrition promotion that:

- is offered at each grade level K-8, and is an optional course at the high school, as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills necessary to promote and protect their health;
- is part of not only health education classes, but also classroom instruction in subjects such as math, science, language arts, social sciences and elective subjects;
- includes enjoyable, developmentally appropriate, culturally relevant participatory activities, such as contests, promotions, taste-testing, farm visits and school gardens;
- promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products, healthy food preparation methods and health-enhancing nutrition practices;
- emphasizes caloric balance between food intake and physical activity;
- links with meal programs, other foods and nutrition-related community services; and,
- includes training for teachers and other staff.

199

PHYSICAL ACTIVITY

A. Daily Physical Education

The school district will provide physical education that:

- is for all students in grades K-12 for the entire school year;
- is taught by a certified physical education teacher;
- includes students with disabilities, students with special health-care needs may be provided in alternative educational settings; and,
- engages students in moderate to vigorous activity during at least 50 percent of physical education class time.

The total amount of physical education the school district provides is:

- Middle School provides 120 minutes per week
- High School provides 200 minutes per week

B. Daily Recess

Elementary schools should provide recess for students that:

- is at least 20 minutes a day;
- is preferably outdoors;
- encourages moderate to vigorous physical activity verbally and through the provision of space and equipment; and,
- discourages extended periods (i.e., periods of two or more hours) of inactivity.

Middle School students have the opportunity to participate in 5-10 minutes of recess at the conclusion of their lunch period.

When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, schools should give students periodic breaks during which they are encouraged to stand and be moderately active.

C. Physical Activity Opportunities after School

After-school child care and enrichment programs will provide and encourage—verbally, and through the provision of space, equipment and activities—daily periods of moderate to vigorous physical activity for all participants.

D. Physical Activity as Punishment Prohibited

Employees should not use physical activity (e.g., running laps, push-ups) or withhold opportunities for physical activity (e.g., recess, physical education) as punishment.

OTHER SCHOOL-BASED ACTIVITIES THAT PROMOTE STUDENT WELLNESS

A. Integrating Physical Activity into Classroom Settings

For students to receive the nationally recommended amount of daily physical activity and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond the physical education class. Toward that end, the school district will:

- offer classroom health education that complements physical education by reinforcing the knowledge and self-management skills needed to maintain a physically active lifestyle and to reduce time spent on sedentary activities;
- discourage sedentary activities, such as watching television, playing computer games, etc.;
- provide opportunities for physical activity to be incorporated into other subject lessons; and,
- encourage classroom teachers to provide short physical activity breaks between lessons or classes, as appropriate.

B. Communication with Parents

The school district will support parents' efforts to provide a healthy diet and daily physical activity for their children. The school district will:

- offer healthy eating seminars for parents, send home nutrition information, post nutrition tips on school web sites and provide nutrient analyses of school menus;
- encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet the established nutrition standards for individual foods and beverages;
- provide parents a list of foods that meet the school district's snack standards and ideas for healthy celebrations/parties, rewards and fundraising activities;
- provide opportunities for parents to share their healthy food practices with others in the school community;
- provide information about physical education and other school-based physical activity opportunities before, during and after the school day;
- support parents' efforts to provide their children with opportunities to be physically active outside of school; and,
- include sharing information about physical activity and physical education through a web site, newsletter, other take-home materials, special events or physical education homework.

201

C. Food Marketing in Schools

School-based marketing will be consistent with nutrition education and health promotion. The school district will:

- limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually;
- prohibit school-based marketing of brands promoting predominantly low-nutrition foods and beverages;
- promote healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products; and
- market activities that promote healthful behaviors (and are therefore allowable) including: vending machine covers promoting water; pricing structures that promote healthy options in ala carte lines; sales of fruit for fundraisers.

Examples include marketing techniques include the following: logos and brand names on/in vending machines, books or curricula, textbook covers, school supplies, scoreboards, school structures, and sports equipment; educational incentive programs that provide food as a reward; programs that provide schools with supplies when families buy low-nutrition food products; in-school television, such as Channel One; free samples or coupons; and food sales through fundraising activities.

D. Staff Wellness

The school district values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. Each school should:

- establish and maintain a staff wellness committee composed of at least one staff member, local hospital representative, dietitian or other health professional, recreation program representative, union representative and employee benefits specialist;
- develop, promote and oversee a multifaceted plan to promote staff health and wellness developed by the staff wellness committee;
- base the plan on input solicited from employees and outline ways to encourage healthy eating, physical activity and other elements of a healthy lifestyle among employees.

NUTRITION GUIDELINES FOR ALL FOODS AVAILABLE

A. School Meals

Meals served through the National School Lunch and Breakfast Programs will:

- be appealing and attractive to children;
- be served in clean and pleasant settings;
- meet, at a minimum, nutrition requirements established by local, state and federal law;
- offer a variety of fruits and vegetables daily;
- serve only low-fat (1%) and fat-free milk and nutritionally equivalent non-dairy alternatives (as defined by the USDA);
- ensure that half of the served grains are whole grain; and
- ensure that water is available in cafeteria.

As part of the school meal program, schools should:

- engage students and parents, through taste-tests of new entrees and surveys, in selecting foods offered through the meal programs in order to identify new, healthful and appealing food choices;
- share information about the nutritional content of meals with parents and students. (The information could be made available on menus, a web site, on cafeteria menu boards, placards or other point-of-purchase materials.)
- accommodate alternatives for those students with allergies that meet the above guidelines as closely as possible.

B. Breakfast

To ensure that all children have breakfast, either at home or at school, in order to meet their nutritional needs and enhance their ability to learn, schools will:

- operate the breakfast program, to the extent possible;
- arrange bus schedules and utilize methods to serve breakfasts that encourage participation, including serving breakfast in the classroom, “grab-and-go” breakfasts or breakfast during morning break or recess, to the extent possible;
- notify parents and students of the availability of the School Breakfast Program, where available

C. Free and Reduced-Priced Meals

The school district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price meals. Toward this end, the school district may:

- utilize electronic identification and payment systems;
- provide meals to all children, based on income; and,
- promote the availability of meals to all students.

203

D. Meal Times and Scheduling

The school district:

- will provide students with at least 10 minutes to eat after sitting down for breakfast and 20 minutes after sitting down for lunch;
- should schedule meal periods at appropriate times, e.g., lunch should be scheduled between 11 a.m. and 1 p.m.; should not schedule tutoring, club or organizational meetings or activities during mealtimes, unless students may eat during such activities;
- will provide students access to hand washing or hand sanitizing before they eat meals or snacks;
- should take reasonable steps to accommodate the tooth-brushing regimens of students with special oral health needs (e.g., orthodontia or high tooth decay risk).

E. Qualification of Food Service Staff

Qualified nutrition professionals will administer the meal programs. As part of the school district's responsibility to operate a food service program, the school district will:

- provide continuing professional development for all nutrition professionals; and,
- provide staff development programs that include appropriate certification and/or training programs for child nutrition directors, nutrition managers and cafeteria workers, according to their levels of responsibility.

F. Sharing of Foods

The school district discourages students from sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

G. Foods Sold Outside the Meal (e.g. vending, a la carte, sales)

All foods and beverages sold individually outside the reimbursable meal programs (including those sold through ala carte [snack] lines, vending machines, student stores or fundraising activities) during the school day, or through programs for students after the school day will meet nutrition standards as required by state or federal law. For current state guidelines, click here <http://tinyurl.com/Iowa-HKA>.

H. Fundraising Activities

There are two types of fundraising – regulated and other. Regulated fundraisers are those that offer the sale of foods or beverages on school property and that are targeted primarily to PK-12 students by or through other PK-12 students, student groups, school organizations, or through on-campus school stores. Regulated fundraising activities must comply with the state nutrition guidelines. All other fundraising activities are encouraged, but not required, to comply with the state nutrition guidelines if the activities involve foods and beverages.

The school district encourages fundraising activities that promote physical activity.

I. Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of meals, children's nutritional needs, children's ages and other considerations. The school district will disseminate a list of healthful snack items to teachers, after-school program personnel and parents.

J. Rewards

The school district will not use foods or beverages, especially those that do not meet the nutrition standards for foods and beverages sold individually, as rewards for academic performance or good behavior, and will not withhold food or beverages (including food served through meals) as a punishment.

K. Celebrations

Schools should evaluate their celebrations practices that involve food during the school day. The school district will disseminate a list of healthy party ideas to parents and teachers.

L. School-Sponsored Events

Foods and beverages offered or sold at school-sponsored events outside the school day are encouraged to meet the nutrition standards for meals or for foods and beverages sold individually.

M. Food Safety

All foods made available on campus adhere to food safety and security guidelines. All foods made available on campus comply with the state and local food safety and sanitation regulations. Hazard Analysis and Critical Control Points (HACCP) plans and guidelines are implemented to prevent food illness in schools. http://www.fns.usda.gov/tn/Resources/servingsafe_chapter6.pdf

For the safety and security of the food and facility, access to the food service operations are limited to child nutrition staff and authorized personnel.

N. Summer Meals

Schools in which more than 50 percent of students are eligible for free or reduced-price meals will sponsor the Summer Food Service Program starting the first Monday in June through the last Friday in July.

PLAN FOR MEASURING IMPLEMENTATION

A. Monitoring

The superintendent will ensure compliance with established school district-wide nutrition and physical activity wellness policies.

In each school:

- the principal will ensure compliance with those policies in the school and will report on the school's compliance to the superintendent; and,
- food service staff, at the school or school district level, will ensure compliance with nutrition policies within food service areas and will report on this matter to the superintendent or principal.

In the school district:

- the school district will report on the most recent USDA School Meals Initiative (SMI) review findings and any resulting changes. If the school district has not received a SMI review from the state agency within the past five years, the school district will request from the state agency that a SMI review be scheduled as soon as possible;
- the superintendent will develop a summary report every three years on school district-wide compliance with the school district's established nutrition and physical activity wellness policies, based on input from schools within the school district; and,
- the report will be provided to the school board and also distributed to all school wellness committees, parent/teacher organizations, principals and health services personnel in the school district.

B. Policy Review

To help with the initial development of the school district's wellness policies, each school in the school district will conduct a baseline assessment of the school's existing nutrition and physical activity environments and practices. The results of those school-by-school assessments will be compiled at the school district level to identify and prioritize needs.

Assessments will be repeated every five years to help review policy compliance, assess progress and determine areas in need of improvement. As part of that review, the school district will review the nutrition and physical activity policies and practices and the provision of an environment that supports healthy eating and physical activity. The school district, and individual schools within the school district will, revise the wellness policies and develop work plans to facilitate their implementation.

2016

CLASS OR STUDENT GROUP GIFTS

The board welcomes gifts to the school district from a class or student group. While class gifts to the school district do not require the approval of the superintendent, the board encourages students to consult with the superintendent or other licensed employees prior to selecting a gift for the school district.

CUSTODY AND PARENTAL RIGHTS

Disagreements between family members are not the responsibility of the school district. The school district will not take the "side" of one family member over another in a disagreement about custody or parental rights. Court orders that have been issued are followed by the school district. It is the responsibility of the person requesting an action by the school district to inform and provide the school district the court order allowing such action.

This policy does not prohibit an employee from listening to a student's problems and concerns. However, school district personnel shall remain neutral in a disagreement about custody and parental rights, other than child abuse situations.
